

PRODUCT DATA SHEET

Article No. 64.422.0 - Argon Blue Low S3 ESD SRC

Protection: fiberglass cap and flexible FAP® midsole

Plus: ESD, toe cap protection, metal free

Upper: oiled nubuck leather

Lining: BreathActive functional lining

Footbed: evercushion® BA+

Sole: double density PU sole **naturalFLEXMOTION™** with iCELL-element, very flexible, extreme cushioning and slip resistant

Sizes / Width: 40 - 49 / 11

naturalFLEXMOTION™

The double density PU sole consists of an enormous soft and cushioning PU midsole and a very flexible PU outsole. The wafer profile provides extra support on industrial floors, is easy to clean and offers firstclass „LadderGrip“.

FAP® Flexible Anti Penetration

The flexible anti penetration midsole made out of ceramic-coated fibers, protects the feet completely from penetrating objects.

iCELL

The hard-wearing honeycomb structure of the iCell element improves the cushioning while enhancing the shoe's stability, guidance and comfort.

FiberglassCap

The new developed high tech fiberglass toe cap for optimized protection and enhanced flexibility.

evercushion® BA+

This anatomically shaped, moisture regulating footbed has a nonslippery surface. Two layers of foamed polyurethane in different densities guarantee an active cushioning. The heel and ball elevations as well as the support of the longitudinal arch improve the foot's hold. Furthermore they ensure a natural position of the foot, a relief of pressure and muscle stimulation during walking.

Upper

Oiled nubuck leather has the same velvety character like nubuck leather, but it's smoother and offers more protection against moisture penetrating. Furthermore it also prevents premature ageing by low maintenance.
