ELEVATE CONTROLLER

Your "ELEVATE" controller is equipped with a unique custom front designed for victory. Elevate your play and conquer with confidence.

INFINITE POSSIBILITIES

Do you want to give your "MNR INFINITY" controller a facelift? You can! MNR has a wide range of faceplates (fronts) for your controller.

The entire range can be found on our site <https://www.modsandrepairs.com/brands/mods-and-repairs/>. Or scan the QR code below.

ELEVATE FEATURES

1

EEN UNIEK ONTWERP

The "MNR ELEVATE" controller is equipped with a front designed by MNR. Overcome any obstacle with this mountain-inspired design. No challenge is too great, and no mountain too high.

2

ERGONOMISCHE ACHTERKANT MET GRIP

Each "MNR INFINITY" controller has an ergonomically designed back with rubber bumps for optimum comfort. The texture on the back of the controller gives you extra grip on the controller and therefore your performance in-game.

BEGIN YOUR JOURNEY

To enjoy your “MNR INFINITY” controller, connect the controller to the console via the USB-C cable before using it for the first time. Then press the “MNR” (PS) button to connect.

Important: After the controller is connected for the first time, the controller can be used wirelessly with the console from now on. The controller is now paired via “Bluetooth” by default.

Touchpad	1	MNR (PS) button	6
Create button	2	Mute (microphone) button	7
Option button	3	Bumpers (L1 + R1)	8
Action buttons	4	Headset jack (3.5mm)	9
