# Stigwize 4x 5G Puck Antenna

The Stigwize 4x 5G Puck Antenna is a high-performance, four-in-one rooftop antenna designed specifically for both 4G and 5G networks. This rugged, roof-mount screw antenna is optimized for a broad spectrum of frequency bands, making it an ideal choice for advanced wireless communication systems. With compact dimensions of L82 x W80 x H104 mm, this antenna offers an excellent balance of form factor and performance, perfect for mobile and fixed installations.

## Features

- Antenna type: Roof mount with screw mount
- Dimensions: Length 82mm, Width 80mm, Height 104mm
- Temperature range: -40 to +85 °C
- Humidity: 40% to 95% RH
- Amplification (dBi): 1 dBi for 700-960 MHz, 4 dBi for 1700-2700 MHz and 3300-3800 MHz
- Frequency range: Supports 700-960 MHz, 1700-2700 MHz, and 3300-3800 MHz
- VSWR: < 2.3, indicating excellent adaptation and minimal signal loss
- Polarization: Linear vertical polarization for optimal signal reception

## Key features

- Versatile Frequency Support: Suitable for a wide range of bands, making it an excellent choice for versatile wireless applications.
- High Performance: Provides excellent amplification across key 4G and 5G frequency bands for reliable connectivity and fast data transmission.
- Durable Design: Designed to operate under extreme temperature and humidity conditions, ideal for outdoor use.
- Easy Installation: The screw mounting on the roof and the included RG174 coaxial cables (length 3m x 4) with SMA connectors ensure easy and sturdy installation.
- Linear Vertical Polarization: Ensures consistent and reliable signal reception, essential for mobile communications and fixed network installations.

The Stigwize 4x 5G Puck Antenna Roof Antenna is designed to maximize the efficiency of your 4G/5G network connectivity, making it an excellent choice for professionals in logistics, security, public safety, and many other industries that depend on reliable wireless communications.

## About Stigwize

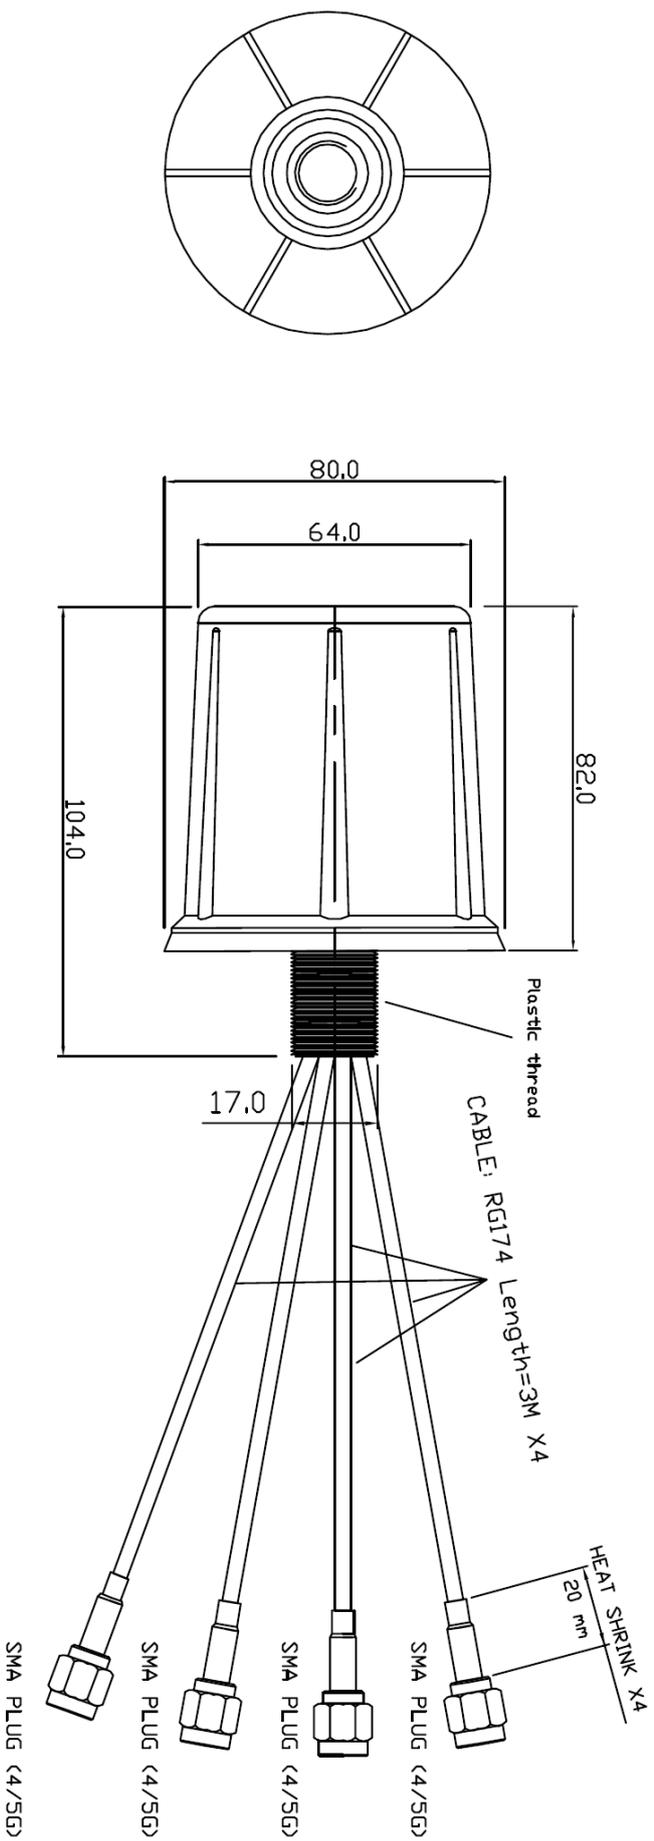

Stigwize is an antenna brand for 4G, 5G, WiFi and GPS antennas for the business market. Stigwize antennas can be used in all kinds of vertical sectors including IoT, Enterprise, Retail, Construction, Mobility, Security and Maritime.

As the European distributor of Stigwize, Capestone supplies the complete antenna portfolio. This portfolio includes 4G and 5G antennas for indoors and outdoors, vandal-resistant puck antennas and screw antennas for mounting on 5G routers.

When stigmatizing profits, in addition to favorable pricing, there are also various other benefits including a 24-month warranty and a direct SWAP policy. Capestone's engineers can also put together custom antennas for projects, so that you always have the most suitable solution, as you have come to expect from Capestone.
