

Bone makes you different!

Bone Collection | **Reads Lin**
Design Director

Bone makes you different!

Founded in 2005 in Taiwan and we are committed in product creativity. Bone carefully observe the details in life, trigger inspirations, and create interesting and practical designs. We put in effort in creativity and also focus on environmental protection by environmentally friendly materials when designing products and make extensive use of "universal design & common parts" design techniques. This lets every energy-consuming mold making and product production maximize the use efficiency to reduce the burden on the Earth.

Smart phones bring unprecedented powerful functions, even in walking, running, cycling, etc., there are more and more interesting experiences, recording the touch of every moment of life and do exercise.
