One size	8.84.010.00	8718249047183	8718249047190

USER INSTRUCTIONS AND SAFETY PRECAUTIONS:

The safety harness is a piece of personal protective equipment that should be assigned to a single user (it must only be used by one person at a time). The harness should be adjusted to the size of the user beforehand. The straps must finally and always be adjusted so that the strap is in place under the buttocks and that the back panel is properly located between the shoulder blades. A harness should be buckled as close to the body as possible, without overdoing it so that the user still has freedom of movement. Follow the next steps:

STORAGE REQUIREMENTS

During transport, keep the belt away from all sharp parts and keep it in its packaging. Clean with soap and water. Wipe with a dry cloth and hang in a ventilated area to allow it to dry naturally and away from any open flame or heat source. This also applies to parts that have become wet during use. Metal parts should be wiped down with a cloth with Vaseline oil. The use of bleach and cleaning detergents is strictly forbidden. The harness should be stored in a dark and ventilated area with a moderate temperature and away from sunlight, heat and chemical products.

TESTING INSTITUTE

This fall protection is certified by: SATRA Technology Europe Ltd (Notified Body no. 2777), Bracetown Business Park, Clonee, Dublin D15 YN2P, Ireland
