CCTV System	
Brand	
Model	

Protocol for using a CCTV system at an FEI Event:	
1.	It must not interfere with any of the systems that the FEI may have installed at the venue.
2.	It must fulfil the requirements for electrical safety standard for use in stable environments as required in the country where it is intended to be installed and be safely installed to ensure safety of horses and humans.
3.	It must only film the PR's own horses. It must not be installed and/or used so that it can film any other athlete, FEI Officials, etc.
4.	The PR must, on request from the OC or FEI Officials, display the document of approval.

After completing, please send this form to goncalo.paixao@fei.org

The CCTV system may only be installed after the application is accepted by the FEI Veterinary Department and upon receiving the document of approval.
