Setting the time until the Revomax display automatically turns off

 Click on Start and double-click on "Documents". Navigate to C:\Users\Revomax and double-click on "kill md". This will close the air conditioning program.

 Navigate to C:\Users\Revomax\optiClimateRemote, right-click on "RemoteController.preferences", and select "Open with Notepad".

Notepad will now open.

- 3. Change the line "DisplayTimeout=0s" to the desired time.
 - a. 300s means 5 minutes.
 - b. **0s** means the display will always stay on. Save the file.

4. Navigate to C:\Users\Revomax and double-click on "start.cmd". This will start the air conditioning program.

5. Press the **Start button** and then click on the air conditioning program icon. The window of the air conditioning program will now be visible again.

6. Press "Close".

The remote control will now function normally again, and the display will turn off after the time set in Step 3.
