

DIAGNOSTIC TOOLS

2020

PRODUCT LINE CATALOGUE

strässle&co

Strässle ECG vacuum systems serve as modern interfaces between patients and electrocardiograph. They enable a smooth process of taking ECGs and are indispensable in modern medical practice.

With their differing capabilities, DT100 B, DT100 C, DT100 T and DT80 B, DT80 C, DT80 T as well as the EASY II meet the complete range of requirements made on modern ECG vacuum systems. DT100 B, DT100 C and DT100 T are also available with accumulator batteries.

The range of capabilities of all these systems includes blow feature, 4-level pressure range adjustment with a one-hand operable control unit, LED information, and, of course, defibrillation protection.

The special automatic control circuitry controls vacuum pumps in a modified pivoting technique and provides controlled adhesion even on problem skins, e.g. of very bony or hairy patients.

The electrode lines are equipped with soft and therefore highly adaptive silicone suckers, the interior of which contains a classical silver-silver chloride electrode.

A continuous high-quality shielding protection against oxidation and a controlled manufacturing process enable the transmission of sensitive measurement potentials and thus a sure diagnosis. Strässle ECG vacuum systems are high-quality medical diagnostic tools and an integrated component of medical and economical investment in modern practice and clinics.

Informative: Each Distributor or end user who combines or assembles Products of Strässle & Co. Medizintechnik GmbH with other products into a system is subject to the requirements set out in (EU) MDR 2017/745 article 22!

DT80 T

DT80 T

DT80 T table model with clamping screw for clamping on tables etc.

A small vacuum unit with a telescopic support arm, designed for occasional use in medical practice.

Comfortable operation, one-hand control, and a long-reach support arm are the special features of this model.

The system has proven control technology in four pressure levels and, like all vacuum systems by Strässle, an automatic blow feature, before and after every use.

Specifications:

- Protection class I ; MPG Class 1
- Supply voltage 230 V~ 50/60 Hz; 22VA
- Vacuum range 60-200 mbar
- Four-level adjustment of vacuum capacity Pressure range and status indication
- Support arm with integrated Defibrillation protection; swivel range approx. 360°
- Silver-silver chloride electrodes; Sucker material silicone; individually exchangeable from outside
- Clamping device with fixing range of 20-55mm **(only for 4000-320 and 4000-321)**

Item No.	Type	Scope of delivery / Description
4000-320	DT80 T	10x vacuum electrode 1m; 1x support arm T; 1x vacuum unit DT80 with control unit and holder for control unit; 1x support for control unit; 1x clamping device ; 1x power cable; 250ml electrode spray
4000-321	DT80 T	6x vacuum electrode 1m and 4x1.3m ; 1x support arm T; 1x vacuum unit DT80 with control unit and holder for control unit; 1x support for control unit; 1x clamping device ; 1x power cable; 250ml electrode spray
Item No.	Type	Scope of delivery / Description
4000-350	DT80 T	10x vacuum electrode 1m; 1x support arm T; 1x vacuum unit DT80 with control unit and holder for control unit; 1x support for control unit; 1x power cable; 250ml electrode spray; without mounting kit
4000-351	DT80 T	6x vacuum electrode 1m and 4x1.3m ; 1x support arm T; 1x vacuum unit DT80 with control unit and holder for control unit; 1x support for control unit; 1x power cable; 250ml electrode spray; without mounting kit

Subject to technical alterations. Our sales and delivery conditions are valid.

This product line catalogue is valid from 2020-March-01 and replaces all previous catalogues and price lists.

DT80 Tplus

DT80 Tplus

The DT80 T is also available in the plus-version DT80 Tplus.

The housing with the vacuum pump is fixed between the housing base and the base plate by a resistant tape. Functional connections such as vacuum connection and control unit are located at the rear of the housing.

The base plate is very solid.

Width 38cm, Depth 40cm
Four lockable caster wheels

Item No.	Type	Scope of delivery / Description	
4000-322	DT80 Tplus	10x vacuum electrode 1m; 1x support arm T; 1x vacuum unit DT80 with control unit and holder for control unit; 1x carriage plus; 1x power cable; 250ml electrode spray	
4000-323	DT80 Tplus	6x vacuum electrode 1m and 4x1.3m; 1x support arm T; 1x vacuum unit DT80 with control unit and holder for control unit; 1x carriage plus; 1x power cable; 250ml electrode spray	

Subject to technical alterations. Our sales and delivery conditions are valid.

This product line catalogue is valid from 2020-March-01 and replaces all previous catalogues and price lists.

DT80 B

[Illustration with
special equipment,
table is not included]

DT80 B

DT80 B in table model version

A small vacuum unit with a large support arm, designed for occasional use in medical practice.

Comfortable operation, one-hand control, and a long-reach support arm are the special features of this model.

The system has proven control technology in four pressure levels and, like all vacuum systems by Strässle, an automatic blow feature, before and after every use.

Specifications:

- Protection class I ; MPG Class 1
- Supply voltage 230 V~ 50/60 Hz; 22VA
- Vacuum range 60-200 mbar
- Four-level adjustment of vacuum capacity Pressure range and status indication
- Support arm with integrated Defibrillation protection; swivel range approx. 315°
- Silver- silver chloride electrodes; Sucker material silicone; individually exchangeable from outside
- Clamping device with fixing range of 20-55mm **(only for 4000-500 and 4000-501)**

Item No.	Type	Scope of delivery / Description	
4000-500	DT80 B	10x vacuum electrode 1m; 1x support arm B; 1x vacuum unit DT80 with control unit and holder for control unit; 1x clamping device ; 1x power cable; 250ml electrode spray	
4000-501	DT80 B	6x vacuum electrode 1m and 4x1.3m ; 1x support arm B; 1x vacuum unit DT80 with control unit and holder for control unit; 1x clamping device ; 1x power cable; 250ml electrode spray	
Item No.	Type	Scope of delivery / Description	
4000-510	DT80 B	10x vacuum electrode 1m; 1x support arm B; 1x vacuum unit DT80 with control unit and holder for control unit; 1x power cable; 250ml electrode spray; without mounting kit	
4000-511	DT80 B	6x vacuum electrode 1m and 4x1.3m ; 1x support arm B; 1x vacuum unit DT80 with control unit and holder for control unit; 1x power cable; 250ml electrode spray; without mounting kit

DT80 C

DT80 with support arm version C
in table model version.

A small vacuum unit with a large support arm, designed for occasional use in medical practice.

The support arm is made of steel and has a flexibly equilibrated joint, which is equipped with a locking button for every 90° of swivel.

The system has proven control technology in four pressure levels and, like all vacuum systems by Strässle, an automatic blow feature, before and after every use.

Specifications:

- Protection class I ; MPG Class 1
- Supply voltage 230 V~ 50/60 Hz; 22VA
- Vacuum range 60-200 mbar
- Four-level adjustment of vacuum capacity Pressure range and status indication
- Support arm with integrated Defibrillation protection; swivel range approx. 315° 120/240cm
- Silver- silver chloride electrodes; Sucker material silicone; individually exchangeable from outside
- Clamping device with fixing range of 20-55mm **(only for 4000-312 and 4000-308)**

Item No.	Type	Scope of delivery / Description
4000-312	DT80 C	10x vacuum electrode 1m; 1x support arm C; 1x vacuum unit DT80 with control unit and holder for control unit; 1x clamping device ; 1x power cable; 250ml electrode spray
4000-308	DT80 C	6x vacuum electrode 1m and 4x1.3m ; 1x support arm C; 1x vacuum unit DT80 with control unit and holder for control unit; 1x clamping device ; 1x power cable; 250ml electrode spray
Item No.	Type	Scope of delivery / Description
4000-354	DT80 C	10x vacuum electrode 1m; 1x support arm C; 1x vacuum unit DT80 with control unit and holder for control unit; 1x power cable; 250ml electrode spray; without mounting kit
4000-355	DT80 C	6x vacuum electrode 1m and 4x1.3m ; 1x support arm C; 1x vacuum unit DT80 with control unit and holder for control unit; 1x power cable; 250ml electrode spray; without mounting kit

Subject to technical alterations. Our sales and delivery conditions are valid.

This product line catalogue is valid from 2020-March-01 and replaces all previous catalogues and price lists.

DT80 Cplus

DT80 Cplus

Die DT80 C is also available in the plus-version DT80 Cplus.

The housing with the vacuum pump is fixed between the housing base and the base plate by a resistant tape. Functional connections such as vacuum connection and control unit are located at the rear of the housing.

The base plate is very solid.

Width 38cm, Depth 40cm
Four lockable caster wheels

Item No.	Type	Scope of delivery / Description	
4000-313	DT80 Cplus	10x vacuum electrode 1m; 1x support arm C; 1x vacuum unit DT80 with control unit and holder for control unit; 1x carriage plus; 1x power cable; 250ml electrode spray	
4000-309	DT80 Cplus	6x vacuum electrode 1m and 4x1.3m; 1x support arm C; 1x vacuum unit DT80 with control unit and holder for control unit; 1x carriage plus; 1x power cable; 250ml electrode spray	

Subject to technical alterations. Our sales and delivery conditions are valid.

DT80 CL

[Illustration with
special equipment,
table is not included]

DT80 CL

The DT80 CL is a table model in steel arm design with extension.

The extension is 30 cm long and is equipped with two notches and bolts.

90° lockable swivel positions enable practical work with larger reach.

Clamping device with fixing range of 20-55mm
(only for 4000-319 and 4000-318)

Item No.	Type	Scope of delivery / Description
4000-319	DT80 CL	10x vacuum electrode 1m; 1x support arm CL; 1x vacuum unit DT80 with control unit and holder for control unit; 1x clamping device ; 1x power cable; 250ml electrode spray
4000-318	DT80 CL	6x vacuum electrode 1m and 4x1.3m ; 1x support arm CL; 1x vacuum unit DT80 with control unit and holder for control unit; 1x clamping device ; 1x power cable; 250ml electrode spray

Best.-Nr.	Type	Scope of delivery / Description
4000-356	DT80 CL	10x vacuum electrode 1m; 1x support arm CL; 1x vacuum unit DT80 with control unit and holder for control unit; 1x power cable; 250ml electrode spray; without mounting kit
4000-357	DT80 CL	6x vacuum electrode 1m and 4x1.3m ; 1x support arm CL; 1x vacuum unit DT80 with control unit and holder for control unit; 1x power cable; 250ml electrode spray; without mounting kit

DT100 T

DT100 T ECG – vacuum system with table clamp

Solid table model with clamping screw for clamping on tables etc.

The device has a telescopic, flexible support arm, a high-volume vacuum pump with blow feature and controlled vacuum technology.

[Illustration with
special equipment,
table is not included]

Specifications

- Protection class I; MPG Class 1
- Supply voltage 115/230 V~ 50/60 Hz; 50 VA
- Vacuum range 60–260 mbar; four-level vacuum capacity adjustment; Pressure range and status indication
- Support arm with integrated defibrillation protection; pivoting range approx. 360°
- Silver-silver chloride electrodes; sucker material silicone; individually exchangeable from the outside
- Optionally with accumulator battery
- Accumulator capacity sufficient for 6 h
- **Clamping screw with fixing range 20 – 55 mm**

Item No.	Type	Scope of delivery / Description
4000-264	DT100 T	10x vacuum electrode 1m; 1x support arm T; 1x vacuum unit DT100; 1x control unit with holder; 1x clamping device ; 1x power cable; 250ml electrode spray
4000-262	DT100 T	6x vacuum electrode 1m and 4x1,3m ; 1x support arm T; 1x vacuum unit DT100; 1x control unit with holder; 1x clamping device ; 1x power cable; 250ml electrode spray

Systems with accumulator battery:

4000-265	DT100A T	10x vacuum electrode 1m; 1x support arm T; 1x vacuum unit DT100 with integrated accumulator battery ; 1x control unit with holder; 1x clamping device ; 1x power cable; 250ml electrode spray
4000-263	DT100A T	6x vacuum electrode 1m and 4x1,3m ; 1x support arm T; 1x vacuum unit DT100 with integrated accumulator battery ; 1x control unit with holder; 1x clamping device ; 1x power cable; 250ml electrode spray

Subject to technical alterations. Our sales and delivery conditions are valid.

This product line catalogue is valid from 2020-March-01 and replaces all previous catalogues and price lists.

Subject to technical alterations. Our sales and delivery conditions are valid.

This product line catalogue is valid from 2020-March-01 and replaces all previous catalogues and price lists.

DT100 Tplus

DT100 Tplus

The telescopic support arm T for mobile practical use.

Stand-alone version, carriage with integrated vacuum unit DT100

Mobile operation

Base plate

Very solid design

Width 38 cm

Depth 40 cm

Four lockable caster wheels

Item No.	Type	Scope of delivery / Description
4000-275	DT100 Tplus	10x vacuum electrode 1m; 1x support arm T; 1x vacuum unit DT100; 1x control unit with holder; 1x carriage plus; 1x power cable; 250ml electrode spray
4000-273	DT100 Tplus	6x vacuum electrode 1m and 4x1,3m; 1x support arm T; 1x vacuum unit DT100; 1x control unit with holder; 1x carriage plus; 1x power cable; 250ml electrode spray

Systems with accumulator battery:

4000-276	DT100A Tplus	10x vacuum electrode 1m; 1x support arm T; 1x vacuum unit DT100 with integrated accumulator battery ; 1x control unit with holder; 1x carriage plus; 1x power cable; 250ml electrode spray
4000-274	DT100A Tplus	6x vacuum electrode 1m and 4x1,3m; 1x support arm T; 1x vacuum unit DT100 with integrated accumulator battery ; 1x control unit with holder; 1x carriage plus; 1x power cable; 250ml electrode spray

Subject to technical alterations. Our sales and delivery conditions are valid.

DT100 T with carriage I

[shown carriage with optional equipment]

DT100 TI with carriage

The telescopic support arm version T with vacuum unit DT100 on carriage I.

The large shelf with a running edge provides a secure position for electro medical devices. Rounded edges avoid injuries.

The surfaces are easy to clean and resistant against disinfectants and detergents.

The push-and lift handle facilitates moving and lifting the carriage.

Large twin caster wheels Ø 100mm provide comfortable motion.

Front wheels lockable
Three shelves

Item No.	Type	Scope of delivery / Description
4000-269	DT100 TI	10x vacuum electrode 1m; 1x support arm T; 1x vacuum unit DT100; 1x control unit with holder; 1x carriage I; 1x power cable; 250ml electrode spray
4000-271	DT100 TI	6x vacuum electrode 1m and 4x1,3m; 1x support arm T; 1x vacuum unit DT100; 1x control unit with holder; 1x carriage I; 1x power cable; 250ml electrode spray

Systems with accumulator battery:

4000-270	DT100A TI	10x vacuum electrode 1m; 1x support arm T; 1x vacuum unit DT100 with integrated accumulator battery ; 1x control unit with holder; 1x carriage I; 1x power cable; 250ml electrode spray
4000-272	DT100A TI	6x vacuum electrode 1m and 4x1,3m; 1x support arm T; 1x vacuum unit DT100 with integrated accumulator battery ; 1x control unit with holder; 1x carriage I; 1x power cable; 250ml electrode spray

Subject to technical alterations. Our sales and delivery conditions are valid.

This product line catalogue is valid from 2020-March-01 and replaces all previous catalogues and price lists.

DT100 T with carriage H

[similar to figure]

DT100 TH with carriage

DT100 with telescopic support arm version T on carriage H.

This combination is also suitable for use in hospitals.

Easily manoeuvrable and solid carriage for ECG device and vacuum unit.

Front wheels lockable.

4-fold socket board with circuit breaker.

Item No.	Type	Scope of delivery / Description	
4000-283	DT100 TH	10x vacuum electrode 1m; 1x support arm T; 1x vacuum unit DT100; 1x control unit with holder; 1x carriage H; 1x power cable; 250ml electrode spray	
4000-285	DT100 TH	6x vacuum electrode 1m and 4x1.3m; 1x support arm T; 1x vacuum unit DT100; 1x control unit with holder; 1x carriage H; 1x power cable; 250ml electrode spray	

Systems with accumulator battery:

4000-284	DT100A TH	10x vacuum electrode 1m; 1x support arm T; 1x vacuum unit DT100 with integrated accumulator battery; 1x control unit with holder; 1x carriage H; 1x power cable; 250ml electrode spray	
4000-286	DT100A TH	6x vacuum electrode 1m and 4x1.3m; 1x support arm T; 1x vacuum unit DT100 with integrated accumulator battery; 1x control unit with holder; 1x carriage H; 1x power cable; 250ml electrode spray	

Subject to technical alterations. Our sales and delivery conditions are valid.

DT100 B ECG – vacuum system with table clamp

Solid table model with clamping screw for clamping on tables etc.

The device has a long-reach, flexible support arm, a high-volume vacuum pump with blow feature and controlled vacuum technology.

Battery version available

Specifications:

- Protection class I; MPG Class 1
- Supply voltage 115/230 V~ 50/60 Hz; 50 VA
- Vacuum range 60–260 mbar; four-level vacuum capacity adjustment; Pressure range and status indication
- Support arm with integrated defibrillation protection; pivoting range approx. 315°
- Silver-silver chloride electrodes; sucker material silicone; individually exchangeable from the outside
Optionally with accumulator battery
- Accumulator capacity sufficient for 6 h
- **Clamping screw with fixing range 20 – 55 mm**

Item No.	Type	Scope of delivery / Description	
4000-464	DT100 B	10x vacuum electrode 1m; 1x support arm B; 1x vacuum unit DT100; 1x control unit with holder; 1x clamping device ; 1x power cable; 250ml electrode spray	
4000-462	DT100 B	6x vacuum electrode 1m and 4x1,3m ; 1x support arm B; 1x vacuum unit DT100; 1x control unit with holder; 1x clamping device ; 1x power cable; 250ml electrode spray	

Systems with accumulator battery:

4000-465	DT100A B	10x vacuum electrode 1m; 1x support arm B; 1x vacuum unit DT100 with integrated accumulator battery ; 1x control unit with holder; 1x clamping device ; 1x power cable; 250ml electrode spray	
4000-463	DT100A B	6x vacuum electrode 1m and 4x1,3m ; 1x support arm B; 1x vacuum unit DT100 with integrated accumulator battery ; 1x control unit with holder; 1x clamping device ; 1x power cable; 250ml electrode spray	

Subject to technical alterations. Our sales and delivery conditions are valid.

DT100 C

[Illustration with
special equipment,
table is not included]

DT100 C ECG - vacuum system with table clamp

The DT100 C is a table model ECG system. It was designed to meet the requirements of modern every-day operation in hospitals, where the operating conditions are often hard.

The support arm is made of steel and has a flexibly equilibrated joint, which is equipped with a locking button for every 90° of swivel.

All features are available in proven DT100 technology.

Blow feature, as well as four controlled pressure levels and a high-volume pump unit go without saying.

Clamping screw with fixing range 20 – 55 mm

Item No.	Type	Scope of delivery / Description
4000-201	DT100 C	10x vacuum electrode 1m; 1x support arm C; 1x vacuum unit DT100; 1x control unit with holder; 1x clamping device ; 1x power cable; 250ml electrode spray
4000-202	DT100 C	6x vacuum electrode 1m and 4x1,3m; 1x support arm C; 1x vacuum unit DT100; 1x control unit with holder; 1x clamping device ; 1x power cable; 250ml electrode spray

Systems with accumulator battery:

4000-203	DT100A C	10x vacuum electrode 1m; 1x support arm C; 1x vacuum unit DT100 with integrated accumulator battery ; 1x control unit with holder; 1x clamping device ; 1x power cable; 250ml electrode spray
4000-204	DT100A C	6x vacuum electrode 1m and 4x1,3m; 1x support arm C; 1x vacuum unit DT100 with integrated accumulator battery ; 1x control unit with holder; 1x clamping device ; 1x power cable; 250ml electrode spray

Subject to technical alterations. Our sales and delivery conditions are valid.

DT100 CL

DT100 CL with table clamp

The DT100 CL is a table model in steel arm design with extension.

The extension is 30 cm long and is equipped with two notches and bolts.

90° lockable swivel positions enable practical work with larger reach.

Clamping screw with fixing range 20 – 55 mm

Item No.	Type	Scope of delivery / Description
4000-221	DT100 CL	10x vacuum electrode 1m; 1x support arm CL; 1x vacuum unit DT100; 1x control unit with holder; 1x clamping device ; 1x power cable; 250ml electrode spray
4000-223	DT100 CL	6x vacuum electrode 1m and 4x1.3m ; 1x support arm CL; 1x vacuum unit DT100; 1x control unit with holder; 1x clamping device ; 1x power cable; 250ml electrode spray

Systems with accumulator battery:

4000-222	DT100A CL	10x vacuum electrode 1m; 1x support arm CL; 1x vacuum unit DT100 with integrated accumulator battery ; 1x control unit with holder; 1x clamping device ; 1x power cable; 250ml electrode spray
4000-224	DT100A CL	6x vacuum electrode 1m and 4x1.3m ; 1x support arm CL; 1x vacuum unit DT100 with integrated accumulator battery ; 1x control unit with holder; 1x clamping device ; 1x power cable; 250ml electrode spray

Subject to technical alterations. Our sales and delivery conditions are valid.

This product line catalogue is valid from 2020-March-01 and replaces all previous catalogues and price lists.

EASY II

EASY II

The EASY, for occasional use, consists of a distributor with integrated defibrillation protection, the electrode suction lines, the vacuum patient line, the vacuum unit and the control unit.

The vacuum patient line starts at the distributor and terminates with the end of the hose in the connecting piece at the rear of the vacuum housing.

The 15-pin connector establishes the connection to the ECG. The control unit with 4-level pressure adjustment and LED information also terminates in the rear of the vacuum housing.

The device has an automatic blowing feature before and after every use.

Specifications:

- Protection class I; MPG Class 1
- Supply voltage 230 V~ 50/60 Hz; 22 VA
- Vacuum range 60-200 mbar; 4-level vacuum capacity adjustment; pressure range and status indication
- Patient cable with integrated defibrillation protection;
- Silver-silver chloride electrodes; sucker material silicone; individually exchangeable from the outside

Item No.	Type	Scope of delivery / Description
4000-405	EASY II	10x vacuum electrode 1m; 1x vacuum unit EASY with control unit and holder for control unit; 1x patient cable with distributor; 1x power cable; 250ml electrode spray
4000-406	EASY II	6x vacuum electrode 1m and 4x1.3m; ; 1x vacuum unit EASY with control unit and holder for control unit; 1x patient cable with distributor; 1x power cable; 250ml electrode spray
4000-407	EASY II	10x vacuum electrode 1.3m; 1x vacuum unit EASY with control unit and holder for control unit; 1x patient cable with distributor; 1x power cable; 250ml electrode spray

Subject to technical alterations. Our sales and delivery conditions are valid.

DT Basic and DT Basic T

Application with self-adhesive electrodes

DT Basic

Our basic product for specific use with self-adhesive electrodes.

The compact version for practical use, especially in confined space situations.

The hinge moving vertically within a radius of 150 degrees, and with a cushioned horizontal pivoting radius of 360 degrees.

Including table clamp

[Illustration with special equipment, table is not included]

Item No.	Type	Scope of delivery / Description	
4000-091	DT Basic	1x support arm Basic; 1x patient line cable with distributor Basic; 1x electrode lead set DT Basic 6/4; 1x clamping device	

[Illustration with special equipment, table is not included]

DT Basic T

Our basic product for specific use with self-adhesive electrodes.

Its functionality and design reflect the current demands on an intelligent support arm.

The innovative design and material results in an efficient and space-saving support arm system.

The telescopic arm is stepless extendable from 84cm to 132cm.

The hinge moving vertically within a radius of 150 degrees, and with a cushioned horizontal pivoting radius of 360 degrees.

Including table clamp

Item No.	Type	Scope of delivery / Description	
4000-090	DT Basic T	1x support arm Basic T; 1x patient line cable with distributor Basic T; 1x electrode lead set DT Basic 6/4; 1x clamping device

— carriage I —

- Figure see reverse -

[shown carriage with optional equipment]

Carriage Basic equipment:

- three shelves
- four twin caster wheels Ø 10cm,
two of them lockable

Carriage Special equipment:

- Drawer
- Socket board fixing with reeling device
- Socket board

Specifications:

Height top plate:	82 cm
Height first shelf:	59,5 cm
Height second shelf:	37,5 cm
Height base plate:	14,5 cm
Plate size:	
Length x Width	49 x 50 cm
Weight:	
max. load	150 kg
max. load per shelf	50 kg

Item No.	Scope of delivery / Description	
4000-180	Carriage I Rack with 4 twin caster wheels Ø 100mm, 2 of them lockable, 3 shelves, sliding handle.	

Extras

1000-257	Socket board 6-fold with circuit-breaker	
1000-258	Fixing for socket board EUR 70,50 with reeling device	
1000-259	Drawer	
1000-260	Additional shelf

Suction lines

Item No.	Type	Scope of delivery/Description
4000-002	Spare part electrode 1m	1x silver-silver chloride electrode 1m
4000-004	Spare part electrode 1,3m	1x silver-silver chloride electrode 1,3m

Suction line sets

4000-001	Electrode set 1m	10x silver-silver chloride electrode 1m with code plates
4000-003	Electrode set 1,3m	10x silver-silver chloride electrode 1,3m with code plates
4000-005	Electrode set 1m/1,3m	6x silver-silver chloride electrode 1m with code plates (C1-C6) 4x silver-silver chloride electrode 1,3m with code plates (R,L,F,N)

Code plates for suction lines

Item No.	Type	Scope of delivery/Description
2000-159	Code plate set	Ever 1x R,L,F,N,C1,C2,C3,C4,C5,C6

C1	C6
C2	F
C3	L
C4	N
C5	R

Example for use

Item No.	Type	Scope of delivery/Description
2000-646	Code plate set with code plates and identifier for electrodes	Ever 1x R,L,F,N,C1,C2,C3,C4,C5,C6

leads for self-adhesive electrodes

Item No.	Type	Scope of delivery/Description
4000-101	Spare electrode 1m C1	1x snap fastener-electrode 1m coded
4000-102	Spare electrode 1m C2	1x snap fastener-electrode 1m coded
4000-103	Spare electrode 1m C3	1x snap fastener-electrode 1m coded
4000-104	Spare electrode 1m C4	1x snap fastener-electrode 1m coded
4000-105	Spare electrode 1m C5	1x snap fastener-electrode 1m coded
4000-106	Spare electrode 1m C6	1x snap fastener-electrode 1m coded
4000-107	Spare electrode 1,3m F	1x snap fastener-electrode 1,3m coded
4000-108	Spare electrode 1,3m N	1x snap fastener-electrode 1,3m coded
4000-109	Spare electrode 1,3m L	1x snap fastener-electrode 1,3m coded
4000-110	Spare electrode 1,3m R	1x snap fastener-electrode 1,3m coded

Lead set for self-adhesive electrodes

4000-100	Electrode set 1m/1,3m	6x snap fastener-electrode 1m with coding (C1-C6) 4x snap fastener-electrode 1,3m with coding (R,L,F,N)

1. Preise

Die vereinbarten Preise sind Nettopreise ab Albstadt, exklusive der jeweils gültigen Mehrwertsteuer, derzeit 19 % und exklusive Transport. Der Abzug von Skonto ist ausgeschlossen. Es gilt der jeweils gültige Listenpreis.

2. Zahlungsbedingungen

Rechnungen sind, soweit keine anderen Abmachungen getroffen werden, innerhalb 10 Tagen ab Rechnungsdatum ohne jeden Abzug (Skonto) zahlbar.

3. Verzug

Bei Zahlungsverzug werden unbeschadet weitergehender Rechte Verzugszinsen in Höhe von 10 % jährlich berechnet, es sei denn, der Kunde weist einen geringeren Verzugsschaden nach.

4. Rücktritt

Kommt der Käufer mit seiner Zahlungspflicht in Verzug, sind wir berechtigt, vom Kaufvertrag zurückzutreten oder Schadenersatz wegen Nichterfüllung zu verlangen sowie die Ware zurückzunehmen. Der Käufer ist zum Rücktritt vom Vertrag bei Nichteinhaltung einer verbindlich zugesagten Lieferfrist erst dann berechtigt, wenn er uns schriftlich eine Nachfrist von 2 Wochen mit Ablehnungsandrohung geschickt hat. Höhere Gewalt und sonstiges unverschuldetes Unvermögen berechtigen uns, außer zum Rücktritt vom Vertrag, zur Verlängerung der Lieferfrist um die Dauer der Störung. Überschreiten die sich daraus ergebenden Verzögerungen den Zeitraum von 6 Wochen, so ist auch der Käufer berechtigt, hinsichtlich des betroffenen Leistungsumfangs vom Vertrag zurückzutreten. Sonstige Ansprüche bestehen nicht.

5. Gewährleistung

Unsere Gewährleistungsverpflichtung beschränkt sich nach unserer Wahl auf Nachbesserung oder Ersatzlieferung. Im Rahmen der Gewährleistung ersetzte Teile gehen in unser Eigentum über. Bei Fehlschlagen der Nachbesserung oder Ersatzlieferung bleibt dem Käufer das Recht vorbehalten, Herabsetzung der Vergütung oder nach seiner Wahl Rückgängigmachung des Vertrages zu verlangen. Unsere Garantieleistungen setzen voraus, dass das System jederzeit vorschriftsmäßig (vgl. Bedienungsanleitung, auf dem Gerät angebrachte Hinweise, sonstige Begleitunterlagen) benutzt worden ist (Lagerung, Transport, Geräteanschluss). Auf Verschleißmittel, hierzu gehören insbesondere die Elektrodenleitungen mit Anbauteilen, besteht kein Garantieanspruch. Gewährleistungsansprüche für Sachmängel unserer Produkte verjähren innerhalb eines Jahres ab Übergabe; die Regelung gemäß Punkt I, 7 bleibt unberührt.

6. Haftung

Der Einsatz unserer Produkte und deren Verwendung zu einem bestimmten Zweck ist ausschließlich Sache des Käufers und erfolgt auf dessen eigene Verantwortung. In keinem Fall haften wir für Schäden, die sich direkt oder indirekt durch unsachgemäßen Gebrauch, Störungen oder Betriebsausfall ergeben. Ausgeschlossen ist insbesondere die Haftung für Folgeschäden, entgangenen Gewinn oder Ersatzansprüche Dritter, soweit dies nach den gesetzlichen Bestimmungen zulässig ist.

7. Schadenersatzansprüche

Schadenersatzansprüche des Kunden wegen Pflichtverletzung, unerlaubter Handlung oder aus sonstigen Gründen sind ausgeschlossen, soweit nicht Vorsatz, grobe Fahrlässigkeit, die Verletzung einer wesentlichen Vertragspflicht, die Übernahme eines Beschaffungsrisikos oder einer Garantie vorliegen oder wir nach den Bestimmungen des Produkthaftpflichtgesetzes zwingend haften. Unsere Haftung für Schäden aus der Verletzung des Lebens, des Körpers oder der Gesundheit richtet sich nach den gesetzlichen Bestimmungen. In allen Fällen ist unsere Ersatzpflicht beschränkt auf den typischerweise eintretenden vorhersehbaren Schaden.

8. Angebote

Nur bei Verträgen über Warenlieferungen mit Verbrauchern sind wir 4 Monate ab Vertragsschluss an die mit dem Kunden schriftlich vereinbarten Preise gebunden. Ist vorgesehen, dass die Lieferungen 4 Monate nach Vertragsschluss noch nicht abgeschlossen sind, wird bei Änderung der damals maßgeblichen Verhältnisse die jeweils gültige Preisliste anwendbar, bei Preiserhöhungen nur dann, wenn sie im Verhältnis zu den Veränderungen angemessen sind.

9. Aufrechnung

Die Aufrechnung mit bestrittenen oder nicht rechtskräftig festgestellten Gegenforderungen ist ausgeschlossen.

10. Eigentumsvorbehalt

Bis zur Erfüllung aller Forderungen, die uns aus jedem Rechtsgrund gegen den Kunden jetzt oder künftig zustehen, behalten wir uns das Eigentum an allen gelieferten und eingebauten Teilen vor. Bei Zugriffen Dritter auf unter Eigentumsvorbehalt stehender Ware, insbesondere durch Pfändungen oder einen Gerichtsvollzieher, wird der Käufer auf unser Eigentum hinweisen und uns unverzüglich benachrichtigen, damit wir unsere Eigentumsrechte durchsetzen können. Soweit der Dritte nicht in der Lage ist, uns die in diesem Zusammenhang entstehenden gerichtlichen oder außergerichtlichen Kosten zu erstatte, haftet hierfür der Kunde.

II. Besondere zusätzliche Geschäftsbedingungen für Kaufleute im Rahmen ihres Handelsgewerbes, für juristische Personen des öffentlichen Rechts und öffentlich rechtliche Sondervermögen

1. Die Geschäftsbedingungen sind Bestandteil aller mit uns geschlossenen Verträge, auch in künftigen Geschäftsverbindungen. Abweichenden Bedingungen des Kunden/Lieferanten wird widersprochen.

2. Unsere Verkaufsangebote sind freibleibend. Zwischenverkauf bleibt vorbehalten.

3. Bestellungen von Kaufleuten sind für uns nur verbindlich, soweit wir sie bestätigen oder ihnen durch Übersendung der Ware nachkommen; mündliche Nebenabreden nur, wenn wir sie schriftlich bestätigen.

4. Abweichend von den Bedingungen für alle Käufer gelten die am Tag der vorgenommenen Lieferung bzw. Abnahme geltenden Preislisten.

5. Die Gefahr geht auf den Käufer über, sobald die Sendung an die den Transport ausführende Person übergeben worden ist oder zwecks Versendung das Lager des Verkäufers verlassen hat. Wird der Versand auf Wunsch des Käufers verzögert, geht die Gefahr mit der Meldung der Versandbereitschaft auf ihn über.

6. Eine Bezugnahme auf technische Normen stellt keine Zusicherung dar.

7. Altgeräte, zu deren Rücknahme wir gem. § 10 des Gesetzes über das Inverkehrbringen, die Rücknahme und die umweltverträgliche Entsorgung von Elektro- und Elektronikgeräten verpflichtet sind, sind vom Käufer kostenfrei an uns zurückzusenden.

8. Im Rahmen eines ordentlichen Geschäftsganges dürfen unter Eigentumsvorbehalt stehende Gegenstände verarbeitet oder mit anderen Sachen verbunden und vermischt werden. An den dadurch entstehenden neuen Sachen erwerben wir Miteigentum; der Anteil berechnet sich nach dem Lieferwert der von uns gelieferten Sache. Die in unserem Eigentum oder Miteigentum stehenden Sachen sind sicher und sachgemäß aufzubewahren und gegen Diebstahl, Feuer und sonstige Gefahren zu versichern. Über sie darf nur im Rahmen eines ordnungsgemäßen Geschäftsganges verfügt werden. Insbesondere dürfen sie nur dann veräußert werden, wenn, falls nicht bar bezahlt wird, das Eigentum auch den Abnehmern gegenüber vorbehalten wird und ihnen die in diesem Abschnitt enthaltenen Verpflichtungen schriftlich auferlegt werden. Alle Forderungen und Ansprüche gegen Dritte, die sich auf die in unserem Eigentum stehenden Sachen beziehen, sind sicherungshalber an uns abgetreten. An uns abgetretene Geldforderungen dürfen vom Kunden im Rahmen des ordnungsgemäßen Geschäftsganges im eigenen Namen, jedoch für unsere Rechnung, eingezogen werden. In anderer Weise darf über diese Forderungen nicht verfügt werden. Insbesondere dürfen sie nicht noch einmal abgetreten werden, auch nicht zum Zwecke des Forderungseinzugs im Wege des Factoring, es sei denn, es wird gleichzeitig die Verpflichtung des Factors begründet, die Gegenleistung in Höhe unseres Forderungsanteils solange unmittelbar an uns zu bewirken, als noch Forderungen unsererseits gegen den Auftraggeber bestehen. Bei vertragswidrigem Verhalten des Kunden, insbesondere bei Zahlungsverzug, sind wir berechtigt, die Herausgabe der in unserem Eigentum stehenden Sachen oder Abtretung der Herausgabeansprüche des Kunden gegen Dritte zu verlangen. Dasselbe gilt, wenn uns eine wesentliche Verschlechterung der Vermögensverhältnisse des Kunden bekannt wird und dadurch unsere Ansprüche gefährdet werden. In diesen Fällen können wir die Ermächtigung zur Veräußerung der gelieferten Sachen und zur Einziehung der an uns abgetretenen Geldforderungen widerufen und die Forderungen selbst einzahlen. Die Geltendmachung unseres Herausgabeanspruchs gemäß vor stehenden Bestimmungen oder die Pfändung einer in unserem Eigentum stehen den Sache berührt die Durchführung des Vertrages nicht, insbesondere ist dies nicht als Rücktritt vom Vertrag anzusehen. Die für uns bestehenden Sicherheiten dienen der Sicherstellung aller Forderungen gegen den Kunden. Überschreitet ihr Wert unsere Forderung um mehr als 20 %, geben wir auf Verlangen einen entsprechenden Teil der Sicherheiten nach unserer Wahl frei. Zugriffe Dritter auf die uns gehörenden Waren und Forderungen sind uns vom Kunden unverzüglich mitzuteilen.

9. Für sämtliche Ansprüche aus der Geschäftsverbindung ist ausschließlicher Gerichtsstand der Sitz unseres Unternehmens.

10. Der Erfüllungsort ist der Sitz unseres Unternehmens. Dort sind auch sämtliche Fakturen zahl- und klagbar.

11. Es gilt ausschließlich deutsches Recht.

12. Bei Unwirksamkeit einzelner Vertragsklauseln wird die Wirksamkeit aller sonstigen Vereinbarungen nicht berührt. Anstelle der unwirksamen Klausel gilt eine dem Zweck wirtschaftlich möglichst nahestehende Regelung.
