

ELECTRICITY KILLS

WARNING INDICATORS SAVE LIVES

We are *the* Electrical Safety Warning Indicator Specialist. Our products provide a visual reminder that an electrical circuit is live. Reducing the risk of accidents. Saving lives!

Our products have been keeping workplaces safe for over 25 years. They are used by some of the world's largest companies, across a wide range of industries.

In Great Britain, **The Health & Safety Executive (HSE)**, revealed injuries to workers involving electricity averaged...

ONE FATALITY EVERY 10 DAYS

Between 2003-15, **Safe Work Australia** reported that...

142 WORKERS DIED

As a result of contact with electricity

Electrical Safety Foundation International (ESFI), says between 2011-2021 in the U.S. there were...

1653 DEATHS

due to electrical incidents in the workplace.

BY FORTRESS

ENHANCE LOCKOUT TAGOUT PROCEDURES

Reduce serious incidents and fatalities by providing a permanent visual reminder that an electrical circuit is live.

WHAT OUR PRODUCTS OFFER...

Confirm isolation

Quick and easy method of proof of isolation to enhance lock out / tag out procedures.

Attract attention

Bright, flashing LEDs display live/ isolation status on the front of a control panel.

Fits new and existing control panels

30.5mm door unit, 22.5mm Din rail width for simple installation.

Phase indication

Simple way to monitor correct 3 phase rotation.

Electrical isolation

Low voltage to the door ensures maximum safety.

Broad range of voltages

Monitor voltages and phases up to 1000V.

Maintenance free

Easy to install with no onward maintenance.

Universal compliance

Extensive global certifications, including up to OVC IV.

WHAT OUR CUSTOMERS SAY...

"Skilled people not following procedures is common. The REMLIVE RL-24i prevents technical staff forgetting or getting out of phase when testing panels."

"The pressure to fix machines is enormous – the REMLIVE RL-24i helps to minimise production down-time."

NEW RL-24i PHASE INDICATOR

MONITOR 3 PHASE SUPPLIES UP TO 1000 VAC

Reduce serious incidents and equipment damage with a visual indication of the correct phase sequence.

Complies with UL 61010-1
CSA C22.2 No. 61010-1 E115083

Rated at IP66 & NEMA 4X for USA.

Fortress Interlocks Limited, 2 Inverclyde Drive, Wolverhampton, WV4 6FB
