MODU M INSTRUCTION MANUAL

DESIGN CONCEPT

Modu stands for modularity, the basic concept for this pendant light family. The upper and lower part are not affixed encouraging to combine sizes, colors and materials freely. The upper part is available in three different sizes and two different materials, making clusters especially attractive. Vivid colors, simplicity in shape and possibility of variation make Modu special and let it fit perfectly in all interior environments.

DESIGNER PROFILE

Modu is designed by the TEO Creative Directors, Lena Billmeier and David Baur from Germany.
