TIMELESS EVERYDAY OBJECTS

AWA FLOOR LIGHT S / L INSTRUCTION MANUAL

DESIGN CONCEPT

The Awa Series's design is inspired by inflatable Japanese construction site lamps and by the concept of blowing it-self-like to blow glass or to blow up a bubble-gum. In Japan, *Awa* literally means bubble and as a name giver it refers to the soft volume of the glass body in contrast to its delicate and minimalist fixture system. Awa is build modular, the same fixture can be used for large and small pendants, as well as for table and floor lights.

DESIGNER PROFILE

Awa has been designed by the TEO Creative Directors, Lena Billmeier and David Baur from Germany.
