MOEBE

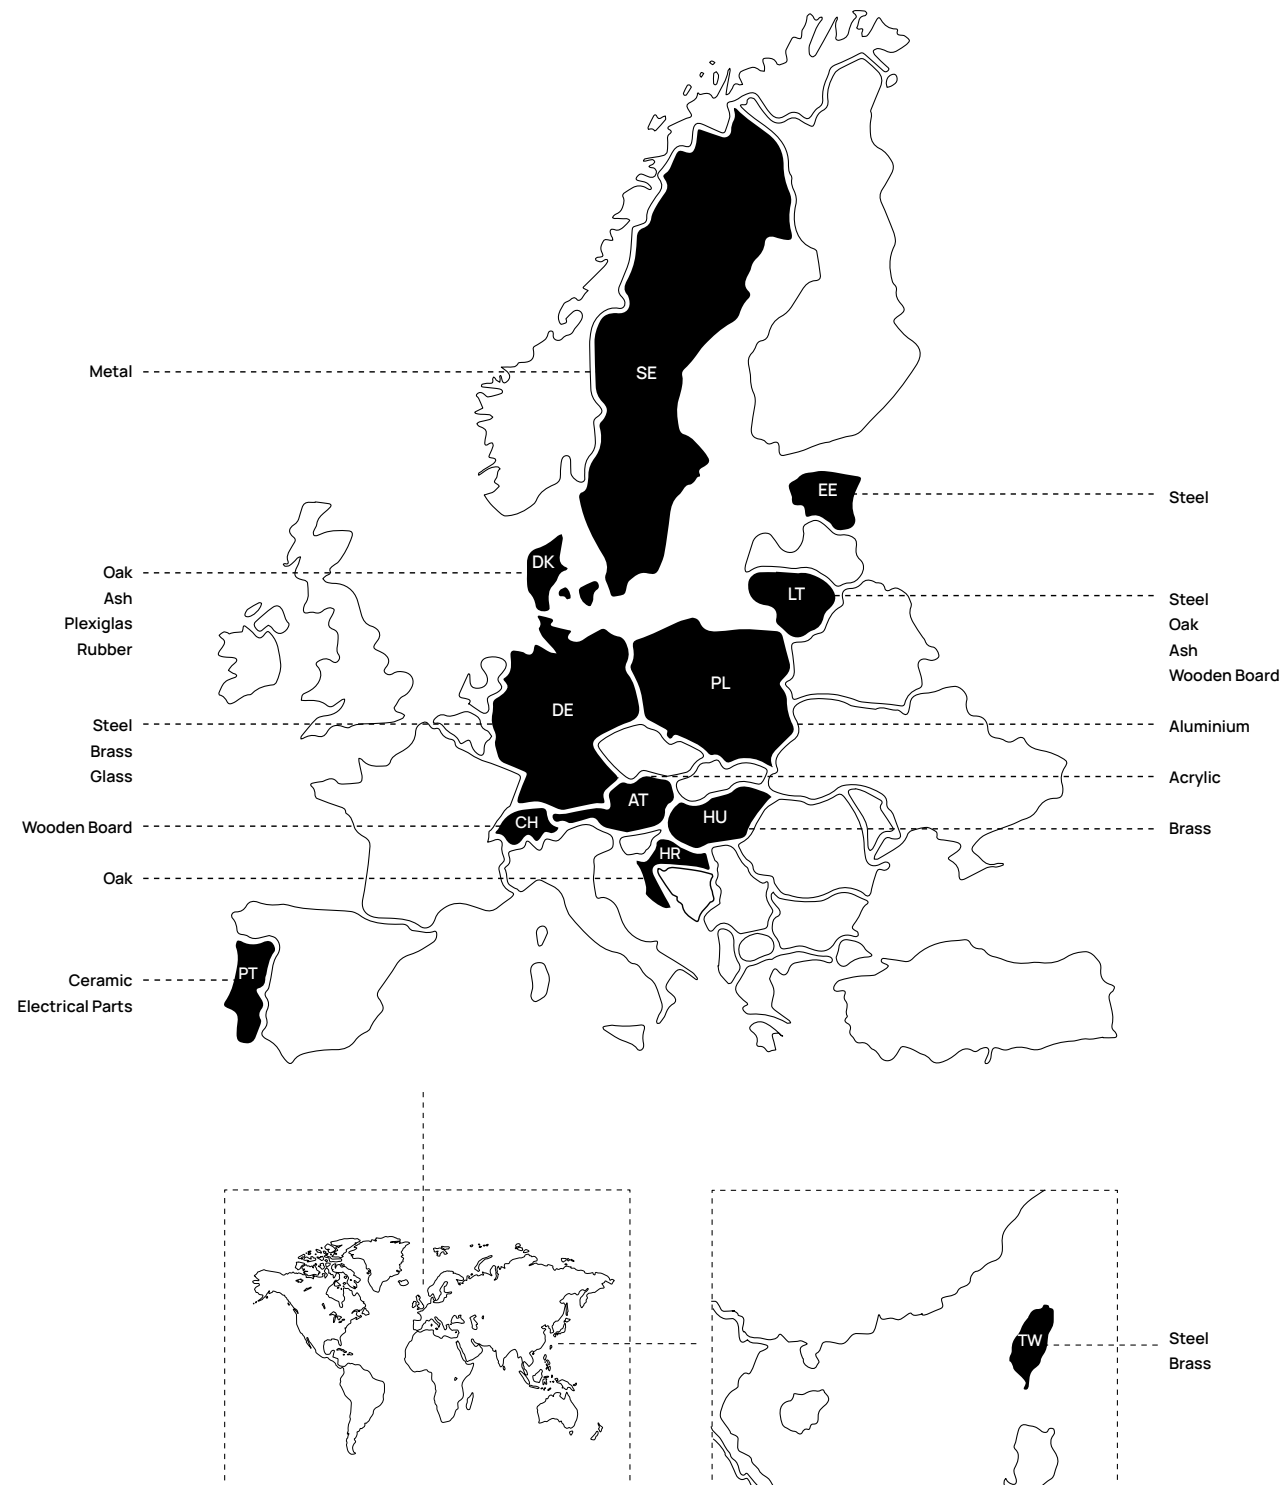

**We're
surrounded by a
lot of stuff,**

**aren't
we?**

It's something we think about a lot. Perhaps what we really need is less – less noise, less clutter, less waste. Room to breathe, and to appreciate the small everyday moments that give meaning to our lives.

Since 2014 we have applied this philosophy to design. Our approach begins with rethinking the essence of a product. What is the core function, and how can we remove the unnecessary? How can we do more with less?

It means putting our efforts into materials, details, and construction, so that each design element has a function and a purpose. Nothing left unthought, and nothing added without meaning. Designed to function and made

We create all designs in-house, prototype in our Copenhagen workshop and produce with a network of trusted partners – with 95% of those based in Europe.

Made to last

We believe in what we do and in the quality of our products. That's why all of our designs come with a 5-year warranty. This guarantee covers any functional, material or manufacturing defect on any product you buy from us for private use. We've got you covered.

Right to repair

The modular design of our products allows them to be easily repaired should they break. We offer spare parts for all of our designs, so only the piece that is broken needs to be replaced rather than the product as a whole.

Produced with care

We like keeping our producers close. That's why more than 40% of our production is based in Denmark. It's also why 95% of our total production takes place within the EU. We assess each partner we work with to ensure they meet our stringent social and enviromental standards. Placing the vast majority of our production in Europe supports these beliefs, with the EU providing a strong legal framework supporting us when making sure that people and the environment are treated correctly.

Packaged responsibly

The packaging we use is as important to us as our designs, which is why all of our products arrive in cardboard-based packaging, with no lamination. This protects them through the rigours of shipping and can be easily recycled once its job is done.

Optimised for transport

Our products are constructed from individual parts, meaning they can be packaged in their most reduced form. This helps us cut down transport volume to an absolute minimum and reduces our shipping footprint.

Certifications

We believe in the importance of working with suppliers who respect the natural environment and ensure a sustainable harvest, working continually to select responsible materials at each stage of production. All of our wood is European, and we are proud to be recognised by trusted organisations such as FSC®, PEFC® and EU Ecolabel® across many of our designs. You can find more information on materials and certifications under each product.

Shelving System

Shelving System gives you full freedom to build your own furniture. Build as tall and as wide as you like. Build around corners, or even span different levels. Let your system function as a room divider or simply place it against a wall.

Shelf 85 x 17,5 is a narrow shelf that is half the depth of a standard shelf. It is ideal for displaying smaller items such as cups, spices and kitchen essentials. It also works great in the office for storing your pencils, notebooks, staplers and all the rest.

Shelving System, Set S.200.1.E, Oak - White

Shelving System

Shelving System, Set S.255.2.E, White – White

Shelving System, Desk, Oak – White

Transform Shelving System into a home office by adding a desk. The desk simply replaces one of the shelves, and can be placed at any height. Add a cabinet to your system to hide away the things you don't want lying around – we all have them. As with all parts, cabinet can be placed at any height within the system, and allows for shelves to be placed on either side.

Shelving System, Set S. 200.2.B, Black – Black

More space – more freedom. The 162 x 35 Double Length shelf spans across two bays and adds more freedom and flexibility to your shelving system. Whether placed under a TV or used for the growing vinyl collection, the 162 x 35 shelf is the perfect choice for that extra need for storage on the same level. It is beautiful both as a standalone piece and in combination with the other shelving elements.

Build as tall as you like

We offer three leg sizes: 65 cm, 85 cm and 115 cm. All legs can be attached together in any combination by joining them with our Leg connector sets. The only limitation is the height of your space.

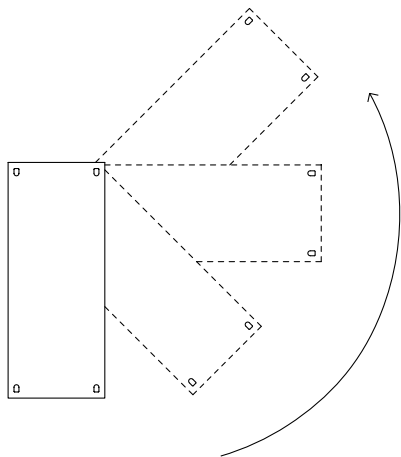

Build as wide as you like

Simply keep adding leg sets and shelves in whichever direction you want to go. One bay measures 85 cm. Because of the overlap each additional bay will add 78 cm to the length.

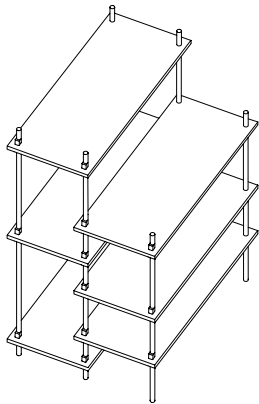

Shelves at any height

The shelves are held in place by wedges, and therefore, there are no predefined positions. You can place a shelf at any height and add as many shelves as you like.

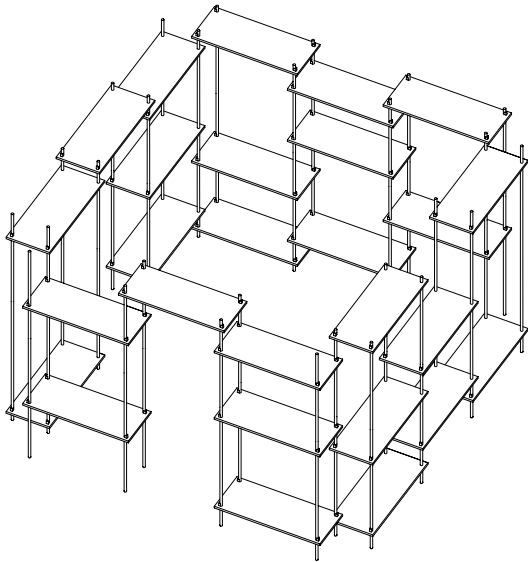

Adapt to any space

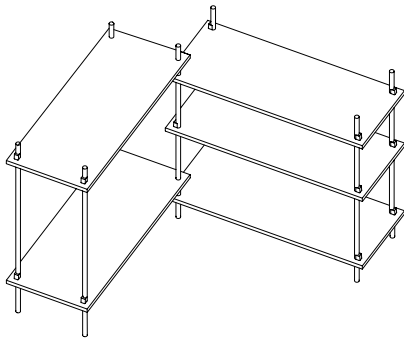

Each leg is independent making it possible to pivot and change directions within your system. This enables you to create a huge array of space divisions or simply go around a corner. See examples on page 34 - 35.

Use it as a single bed in the kid's room or guest room. Expand it to a double bed in the master bedroom. Or make it fit any size in-between. Bed is fully expandable, meaning it will fit any mattress from 90 to 180 cm. A minimal design consisting of a powder coated steel frame in four colours with optional side tables, it's designed to grow with you and your family. The MOEBE Bed is certified with the EU Ecolabel.

Dining Table

Round Dining Table, Ø140, Oak

The MOEBE Dining Table Collection has a table to fit any room.
Choose between round or rectangular, small or large.

Dining Table Collection

Rectangular Dining Table, 160 cm, Oak

Each table arrives flat packed and is assembled into two frames in the case of our rectangular tables, or a single frame in the case of our round table. With the table top then secured in place. Our Dining tables are made in Europe and are FSC certified.

Round Dining Table, Ø140, Oak

Rectangular Dining Table, 220 cm, Oak

Rectangular Coffee Table

The MOEBE Rectangular Coffee Table is low in profile, standing just 30cm from the floor. The cross-shaped leg frame gives a feeling of space by suspending the tabletop along the middle and keeping the corners free.

Rectangular Coffee Table, 115 cm, Oak

Rectangular Coffee Table, 60 cm, Oak

Each table arrives flat packed and is threaded together piece by piece via a brass screwing mechanism at its centre. The table is available in two lengths: 60cm, and 115cm. It is made in Europe and is FSC certified.

Rectangular Coffee Table, 115 cm, Oak

Peg Stool & Bench Collection

Each piece is formed from two halves which are joined by pegs in the middle. The pegs hold the two halves together and create a handy slot down the centre making it easy to move them around with a single hand.

Peg Step Stool, Oak

Peg Stool & Bench Collection

Step Stool is a low stool that is ideal as a step or as a child's stool. Available as a single piece or set of 3 for stacking together. Stool works equally well as a seat, small table or display stand. Available as a single piece or set of three that can be stacked together. Bench works well in any setting though It's narrow width makes it extra ideal in narrow hallways and tight entrances.

Storage Box

Storage Box, Smoked Oak – Black

Storage Box is designed in separable components, making it easy to assemble and disassemble. Use the steel frames as handles for moving around, and stack more than one to optimise on space. The box is stackable and stacks up to three. It is shipped flat-packed and sold individually or in sets of three. Storage Box is beautiful as a stand alone piece of furniture, whilst also fitting perfectly in the MOEBE Shelving System.

The pendant can be used as a single piece by the side of a bed or sofa or used in combination over a dining table or an entire room. The shade is handmade, and therefore every lamp may slightly vary in shape, size and colour, making each lamp unique.

Ceramic Pendant, Wide, Olive

Ceramic Table Lamp

A playful design, this table lamp has a rotating lamp shade letting you decide the direction of the light. Place it on a shelf, in the window sill, on a side table or bench, and use it as a backlight or a direct one.

Ceramic Table Lamp, White

Ceramic Table Lamp

The lamp is constructed from three independent parts; a ceramic body, a ceramic shade, and a white glass bulb. The conical shape of the body allows for the bulb to be secured in place whilst giving the shade the freedom to be completely adjustable. The ceramic is unglazed, raw, and handmade making every lamp unique.

Wooden Wall Hook

Wooden Wall Hook is formed from two pieces of solid oak. The larger part is attached to the wall with the second then slotting into the first from above, which hides the screw and gives the perfect hanging point.

Coat Rack, 70 cm, Black

The rack consists of a metal rod with 4-6 pegs. The pegs simply slide on the rod and can, therefore, be moved around as needed. As the rod can easily be removed from the wall, pegs can be added or removed in an instant.

Toilet Roll Holder

Toilet Roll Holder does what it says; it holds your toilet roll. Formed from two parts, the metal wire holds the paper in place whilst the wooden bracket secures it to the wall. The oak is treated with a water-based lacquer making it ideal for use in damp environments.
