Grifo Clinic Expert

Expert Clinic tap
Robinet Expert Clinic

WWW.INOX-RVS.COM

Características:

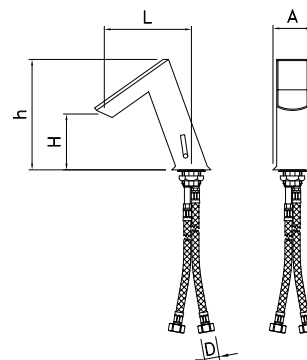

El funcionamiento "sin contacto", facilita una mayor higiene al lavarse las manos así como una fácil limpieza del lavabo. Sus materiales inhibidores de gérmenes y el enjuague higiénico ayudan a evitar la indeseable germinación. El caudal de agua libre de plomo y bacterias cumple con todas las nuevas normas de agua potable.

Characteristics:

The operation "Touchless" enables the highest hygiene when washing your hands as well as an easy clean of the basin. Its anti-sprouting materials and its hygienic shape will avoid the presence of pathogens. Lead-free and antibacterial spout that will allow the user meet the latest drinking water regulations.

Caractéristiques:

L'opération "Touchless" permet plus d'hygiène dans le lavage les mains, ainsi que un nettoyage plus facile du bassin. Ses matériaux inhibiteurs de germination et sa forme hygiénique permettra d'éviter la présence de pathogènes. Sans plomb et avec le bec antibactérien qui permet à l'utilisateur de répondre aux dernières normes de l'eau potable.
