

DuraSeal Exhaust clamp

*Provides a serviceable joint
For high durability requirements*

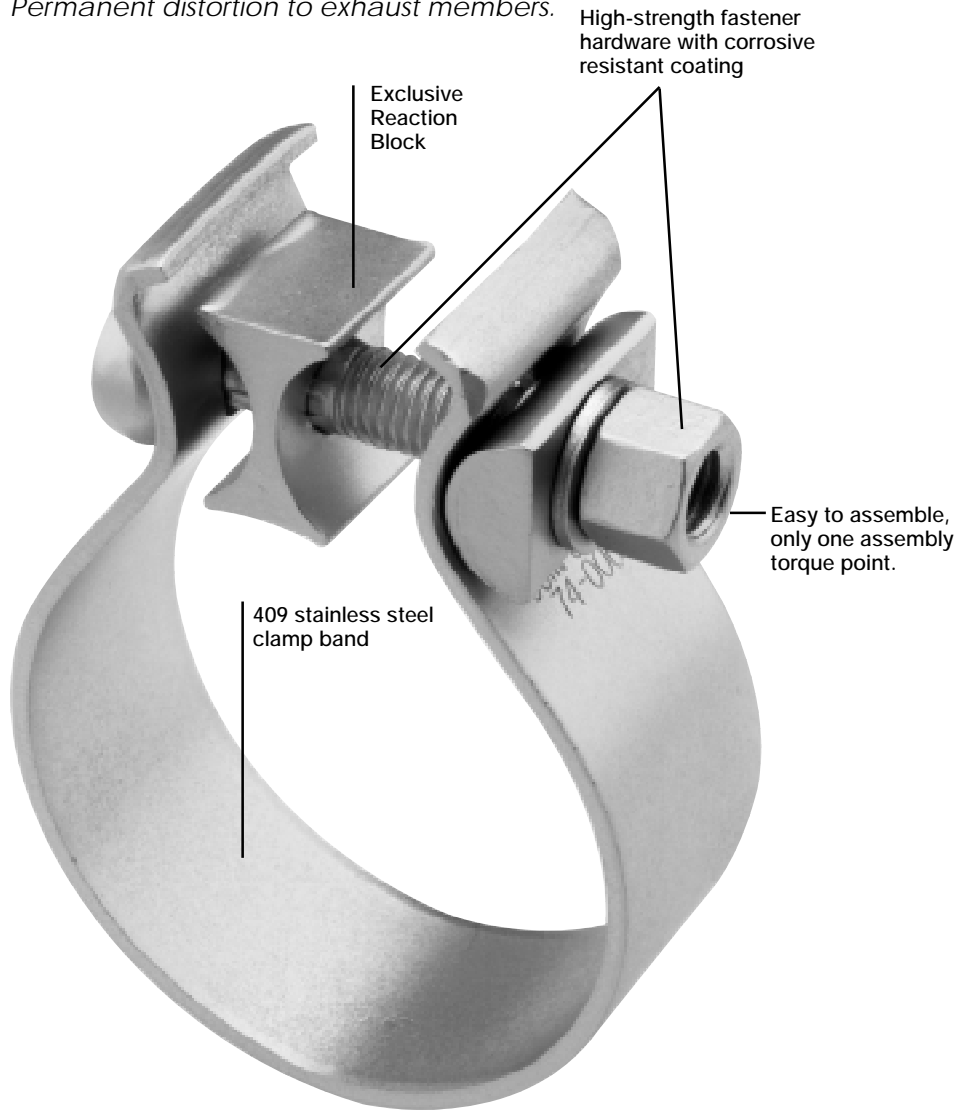

The simple, effective way to connect exhaust system components. Pipes, mufflers and converters.

Extra seal and clamp load performance to meet

Or exceed durability requirements without

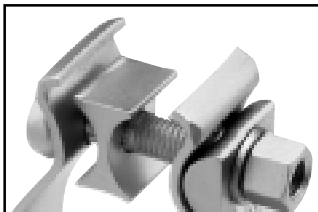

Permanent distortion to exhaust members.

DuraSeal, with Torca designed slots, provides optimal seal and joint retention performance.

- Available in standard size from 50mm (2") to 89mm (3 1/2").
- Improved clamp performance for applications with thicker pipe walls and larger pipe assembly gaps.
- Ideal for applications with limited packaging space. One assembly torque point.
- Unique fastener system efficiently converts band tensile strength into high clamp loads.
- The reaction block provides a full 360° equal distribution of stretching force, prohibiting a pipe distortion while completing a seal around the joined exhaust components.

Unitized assembly . No Loose Hardware. Slides into place, installs easily and reliably.

Preattached to outside tube for part-in-assembly shipment to vehicle assembly plant.

The Reaction Block transfers bolt torque into clamp strength and an assured seal.

DuraSeal®

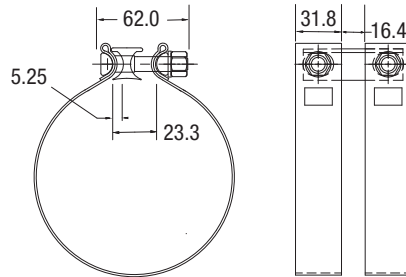

Clamp for thicker exhaust pipes or large pipe gap applications.

For Lap Style Joint Connections | Reaction Block Technology | One Torque Point | Pre-Assembled For Easy Installation | Diameter Range 2" – 5"

HEX SCREW DURASEAL

Hex Screw
409 SS Band

Units: mm

HEX SCREW DURASEAL		Band Material	Nominal Joint Diameter	
Brand PN	Global PN		inches	mm
94-0051	0371 0001 056	409 Stainless Steel	2	50.8
94-0052	0371 0001 062	409 Stainless Steel	2 1/4	57.2
94-0053	0371 0003 068	409 Stainless Steel	2 1/2	63.5
94-0054	0371 0003 075	409 Stainless Steel	2 3/4	69.85
94-0055	0371 0004 081	409 Stainless Steel	3	76.2
94-0056	0371 0000 093	409 Stainless Steel	3 1/2	88.9
94-0057	0371 0001 107	409 Stainless Steel	4	101.6
94-0050	0371 0000 132	409 Stainless Steel	5	127.0

Note: DuraSeal® connections require 'sized' and slotted pipe. Torca recommends the Torca Seal-Slot design (see below).

Note: Additional sizes are available to meet specific application requirements.

Torca Seal-Slot Lap Style Joint Connection
