STAINLESS STEEL 304	NATURAL	40-500MM		No	No	45MM	200 KG

**STRENGTH /UTS - The figures for the ultimate tensile strength (UTS) have been determined by tensile tests in a normal working load direction on standard products and do not include any safety factors. A maximum load rate of 30mm per minute was applied throughout the tests. The UTS figures are shown in Kilograms and for a safe working load we suggest that approximately half of the ultimate strength figure is used.
