# *ONLINE* WINETASTINGS

Pandora's Bottle WIJNHANDEL GOUDA

Ś

# CHEERS!

Are you looking for a fun and safe activity for you and your colleagues? We offer customized online wine tastings. Every participant receives their wines at home, and we'll organize a fun and educational evening or afternoon. We'll taste the wines together and everyone competes in a quiz. **Who of you is the best wine taster?** 

The tasting is hosted live and the interactive quiz is played on individual smartphones/ tablets.

Sarinah is a WSET-certified teacher with years of experience in hosting tastings for all types of groups. We can also set up a team-building exercise where teams analyze and discuss the wines in small groups and compete in the quiz. The wines can tasted blind for an extra exciting element.

## HOW IT WORKS

#### ORDER

Choose a package and reserve a date with us per phone or email. We're flexible, in terms of time of day and tasting options.

#### WE DELIVER

The tasting boxes can be delivered at home to every participant. You'll receive an empty Excel form for collecting all addresses. For very large groups we can take this completely off your hands and build a custom landing page.

#### YOU'RE INVITED

We'll send every participant an invitation with instructions, wine and food pairing tips and a link to the event. We work with Google Meet, you won't have to download anything. Do you prefer another system like Teams or GoToMeeting? No problem of course!

#### CHEERS!

Log in at the appointed time and enjoy the tasting with a fun quiz and live guidance!

Participants in another EU country? Call or email for a personalized quote.

We specialize in Italian wines. We also sell wines from France, Germany, Austria, Spain and other European countries. Because we import all our wines directly, we can tell you all about our wines and you'll taste unique wines you won't easily find somewhere else.

### WHAT OTHERS SAY

 $\star \star \star \star \star$ 

The well-organized wine tastings (online and offline) are fun, cozy, tasty and always educational. Recommended!

Now that everyone has to sit at home, wine tastings cannot take place. But you can if you are enthusiastic, alert, creative and knowledgeable! Then you just organize virtual tastings. Super cool, inspiring and great fun. Delicious wines to boot. Look, smell, taste and conclude. With about 90 people at the same time. Really an evening of fun, very well prepared and very educational.

How nice to connect in these weird COVID-times via an online wine tasting. With friends or colleagues, anything is possible. Sarinah knows how to make wine tasting interesting for everyone, for beginners and real connoisseurs. Highly recommended to organize an online tasting with her. Super nice wine shop! Sarinah really has a lot of knowledge and she manages to transfer this in a way that everyone understands and can apply! Just followed a very nice online wine tasting/quiz which makes #stayhome in this weird time a bit more fun!

During these crazy times we had a really nice online wine tasting. Extensive knowledge about the wines and open to any questions you want to ask. Thanks!

Did a digital wine tasting at Pandora's Bottle. A very nice alternative to a physical meeting. Sarinah thinks along with you, is creative and flexible. Very nice to work with.
