Return Form

We work carefully when choosing the products in our range. Of course, it is always possible that a product does not meet your expectations. You can then return this product to us within 14 days (right of withdrawal) commencing on the day after receipt of your order.

Conditions for returning products

During the cooling-off period, the consumer will handle the products and the packaging with care. He will only unpack or use the product to the extent necessary to determine the nature, characteristics and functioning of the product. The basic principle here is that the consumer may only handle and inspect the product as he would be allowed to do in a store.

We kindly request you to fill in this form completely, in case of an incorrect or incomplete form, your return cannot be processed. You must send the return form together with the product. If you do not send this, this may have consequences for the processing time.

Make sure you pack the product well, including all accessories in their original condition and packaging. If you have received a "free" promotional product, you must also return it, otherwise we are forced to pass on the costs for this promotional product.

Return Costs

The return costs are for your own account, if an item has been sent incorrectly by us, we will of course reimburse these costs.
