

THE LEADING MARSEILLE SOAP SINCE 1894

The Savonnerie du Midi in 1905

#### THE LEADING MARSEILLE SOAP SINCE 1894

For more than 120 years, the Savonnerie du Midi has been making traditional Marseille soaps in the best tradition, of which La Corvette is a supreme example: a blend of history, tradition and expertise, often imitated but never equaled. Marseille soap La Corvette is following the traditional recipe which consists of soaps manufactured in Marseille or in les Bouches-du-Rhône, boiled in a cauldron, using only vegetable oils, with no chemical additives (no dyes, no perfumes and no preservatives).

La Corvette is an answer to today's expectations : it is a research of know-how and products which defend strong regional identity and is assuring a quarantee of quality to the customer. La Corvette offers a wide range of products from this historic tradition, adapted for contemporary needs and suitable for all the family, while respecting both the environment and traditional French expertise. Many of these authentic products - designed either for body care or domestic use - bear the ECOCERT label. Savonnerie du Midi is a member of the COSMEBIO charter since 2007.

La Corvette is claiming strongly its origins from Marseille! Small three-masted ship used to carry out discovery missions from the Port of Marseille, the boat La Corvette was used in the 19th century to supply Marseille soap factories with raw materials. This sailing ship continues its course... and is in keeping with the times by offering products adapted to modern needs while respecting tradition.

Founded in 1894, the Savonnerie du Midi is one of the last historical soap factories of the region making traditional Marseille soap. The Savonnerie du Midi is pleased to welcome visitors to the hearts of its manufacturing site. Inaugurated in December 2018, the Musée du Savon de Marseille offers a unique quided tour: 285m2 of permanent exhibition and a complete visit of the factory: tun room, cauldron room, drying room and moulding cubes room.

At the end of 2020, the Savonnerie du Midi was officially awarded the label «Entreprise du Patrimoine Vivant» (Living Heritage Company). This mark of recognition of the French State, awarded by the Ministry of Economy and Finance, distinguishes French companies that perpetuate traditional know-how of excellence.

# MARSEILLE SOAP

#### TRADITIONAL —

Marseille soap has always been glorified for its many virtues: it is natural, hypoallergenic - and is made in France. It can be used for household cleaning as well as body care and is perfect for those who want to take care of their health and wellbeing, while looking after the environment. Our Marseille soaps are certified by ECOCERT GREENLIFE, based on the COSMOS standard. There are manufactured according to the charter of the Union of Marseille Soap Professionals, controlled by CERTIPAQ, independent certifying organism.

OLIVE

Four of the last remaining soap factories in the Bouches-du-Rhône (south of France), including the Savonnerie du Midi decided to join forces in 2011 by setting up the Union of Marseille Soap Professionals (UPSM), with the aim of protecting real Marseille soap. They signed a charter which quarantees the composition of traditional Marseille soap, the origin and the manufacturing process. La Corvette products are fully compliant with the requirements set out in this charter and bear the registered logo.

# MEDITERRANEE RANGE

La Corvette is broadening its horizons and launching "Méditerranée", a high-end range of organic cosmetic products, which proudly flies the colours of its home region: a bouquet of generous and refined scents, an explosion of light, the call of the open sea, a reverie of softness and purity, etc. Soap bars, liquid soaps and hand creams: all "Corvette Méditerranée" products are made from raw materials of natural origin and enriched with organic ingredients.

## DÉLICES DE MÉDITERRANÉE

It is a luminous land of sea and mountains, a land of plenty, they say, a land blessed by the gods where nature exults and overflows with generosity; the Mediterranean is its name. Give in to the sweet temptation of forbidden fruit; dare to try the exquisite vanilla shades of orange and fig.
