THE LEADING MARSEILLE SOAP SINCE 1894

Franck, Master Soap Maker

THE LEADING MARSEILLE SOAP SINCE 1894

For more than 120 years, the Savonnerie du Midi has been manufacturing traditional Marseille soaps in the traditional way, of which La Corvette is a supreme example: a blend of history, heritage and expertise, often imitated but never equaled. Marseille soap La Corvette is following the traditional recipe which consists of soaps manufactured in Marseille or in les Bouches-du-Rhône, boiled in a cauldron, using only vegetable oils, and free from chemical additives, artificial colourings, fragrance as well as preservatives.

La Corvette is an answer to today's expectations: a research of know-how and products defending a strong regional identity and assuring a guarantee of quality to the customers. La Corvette offers a wide range of products from this historical tradition, adapted for contemporary needs and suitable for all the family, while respecting both the environment and traditional French expertise. Many of these authentic products – designed either for body care or home care – bear the ECOCERT label. Savonnerie du Midi is a member of the COSMEBIO charter since 2007.

La Corvette is strongly claiming its origins from Marseille ! Small three-masted ship used to carry out discovery missions from the Port of Marseille, the boat La Corvette was used in the 19th century to supply Marseille soap factories with raw materials. This sailing ship continues its journey... and is keeping up with the times by offering products adapted to modern needs while respecting tradition.

Founded in 1894, the Savonnerie du Midi is one of the last historical soap factories of the region manufacturing traditional Marseille soap. The Savonnerie du Midi is pleased to welcome visitors to the hearts of its manufacturing site. Inaugurated in December 2018, the Savon de Marseille museum offers a unique guided tour: 285m2 of permanent exhibition and a complete visit of the factory: tun room, cauldron room, drying room and moulding cubes room.

At the end of 2020, the Savonnerie du Midi was officially awarded the label «Entreprise du Patrimoine Vivant» (Living Heritage Company). This mark of recognition of the French State, awarded by the Ministry of Economy and Finance, distinguishes French companies that perpetuate traditional know-how of excellence.

FILM-WRAPPED MARSEILLE SOAPS

Four of the last remaining soap factories in the Bouches-du-Rhône (south of France), including the Savonnerie du Midi decided to join forces in 2011 by setting up the Union of Marseille Soap Professionals (UPSM), with the aim of protecting real Marseille soap. They signed a charter which guarantees the composition of traditional Marseille soap, the origin and the manufacturing process. La Corvette products are fully compliant with the requirements set out in this charter and bear the registered logo.

Faithful to its century-old history, the Prodef family group designs and manufactures natural and effective hygiene and cleaning products in France, allowing everyone to progress in a healthy environment, while respecting the planet's resources. The Group's various production sites, committed to their regions, are building sustainable growth as part of a medium- and long-term vision. The group is combining the transmission of age-old know-how and technological innovation.

Collectively driven by a will to develop itself, the Prodef Group aims to be a showcase for the quality and know-how of our country both in France and internationally.
