

What's inside
your box

Fabulabox Display manual

Step 1

Slide an element A
and B in a E element

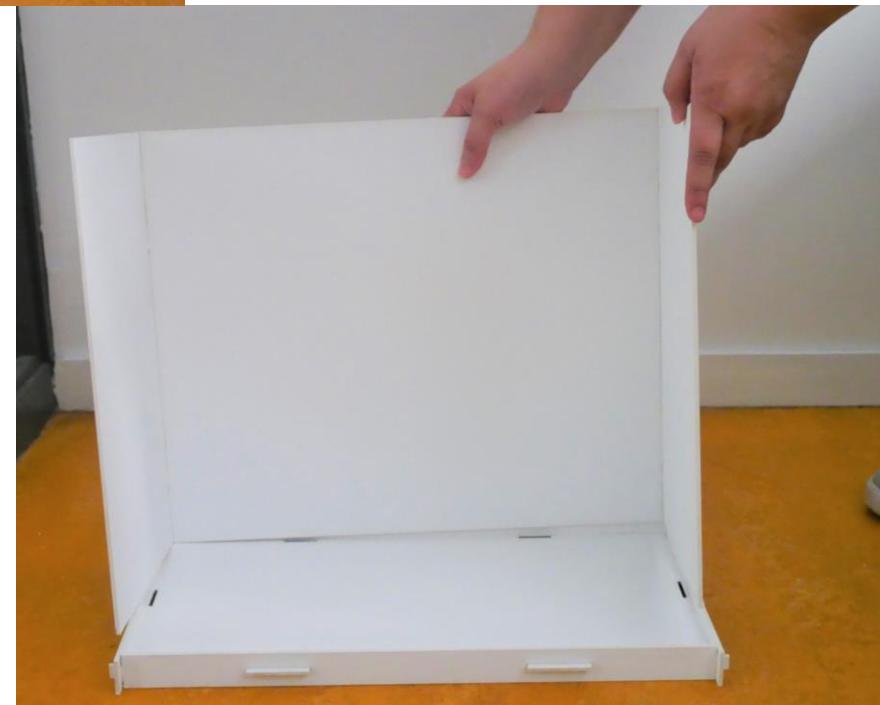

Repeat once

Step 2

Position an element C on the ground, with the slots in the back

Then slide the first assembled A, B, E éléments inside the back slots

Step 3

Slote the second C element on the top

Step 4

Add the other assembled A, B, E éléments on the top

Step 5

Slide the informative D element in the slots on the top C element

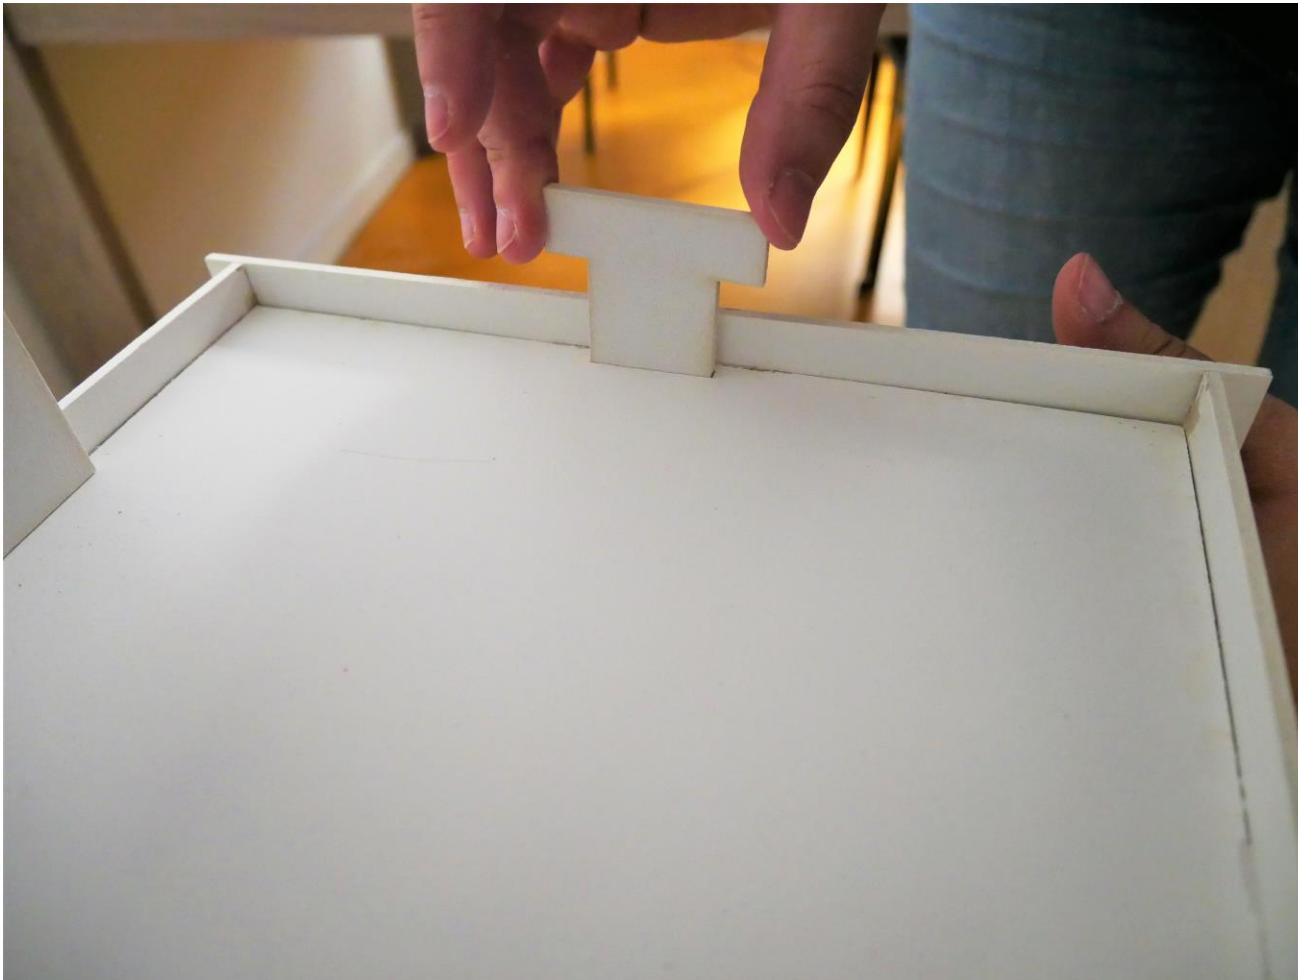

Step 6 Insert an F wedge between the display back and the informative D element to reinforce stability

The large part of F is downwards here

Step 7

Insert the other F wedges in the opened slots on the 3 stages, with the large part upwards this time

Step 8

Set 2 gameboards and the sceneries delivered for demonstration in the top part of the display as depicted here: the top floor shall not otherstep the informative lines .

You can then fill in the shelves. Beware of using the 2 edges that have been optimised for merchandising

We wish you
fabulous
sales
