Corel® Academic Site Licence – Fact Sheet

Corel's new Academic Site Licence rewrites the rule book when it comes to site licensing for schools, colleges and universities. Out go the size restrictions and usage reporting required by some software vendors, and in comes an easy-to-administer site licence that will give your school or campus access to an unmatched range of professional-level graphics, multimedia and utility products – all at a great price!

Bring your lessons and projects to life

Corel's new easy-to-administer Academic Site Licence is the perfect way to deploy a wide range of leading graphics, multimedia and utility software across your entire school or campus.

With no software reporting requirements or maximum restriction on the number of computers, you can install as many copies as you need, making it easy for educators and teachers to introduce a multimedia dimension to any subject, as well as incorporate professional-level software into projects and lessons in design, creative and technical graphics, digital art, vector illustration, video and photo editing and CAD.

We've also included upgrade protection which gives you access to the very latest versions of all products at no extra cost.

Features

The Corel® Academic Site Licence is a value-priced one or three year subscription licence that gives schools, further or higher education colleges and universities access to no less than five of Corel's leading graphics, multimedia and utility products, with the option to also include two of Corel's professional-level technical graphics and 2D & 3D CAD products.

Secondary schools, further or higher education colleges and universities can also purchase the Premium licence.
