

Product Bulletin: Silhouette Sketch Pen Changes

We wish to make all aware of a few changes with our Sketch Pen products.

To this point, all Sketch Pens have been compatible with all Silhouette cutting models. The Sketch Pens fit directly into the tool holder of the cutting machines. All Sketch Pens up until now have had a white plastic body.

The Cameo 4 has introduced a new tool holder size. This means that older tools not specifically created for the Cameo 4 require an adapter in order to fit into this new model. The Cameo 4 machine includes these adapters as part of the offering. These adapters work by latching onto a plastic collar present on most of the tools.

Unfortunately, the Sketch Pens did not include this collar in their original design. As such, we have now redesigned all Sketch Pens going forward to include a collar so that they can be used with an adapter to fit in the Cameo 4. These new sketch pens with the collar now have a black plastic body so they are easily identifiable. They will also be able to continue to fit directly into older cutting machine models.

To summarize the compatibility:

Compatible with				
Sketch Pen Type	Cameo 4	Cameo 1, 2, and 3	Portrait 1 and 2	Curio
White Body	No	Yes	Yes	Yes
Black Body	Yes (with adapter)	Yes	Yes	Yes

Effective immediately, product SKUs for Sketch Pens will be as follows:

Sketch Pen Product	White Body SKU	Black Body SKU
Ultimate Sketch Pen Set	KIT-PEN2	KIT-PEN2-B
Sketch Pen - Basic Set	SILH-PEN-START-3T	SILH-PEN-START-3T-B
Sketch Pen - Black & White Set	SILH-PEN-BLK-3T	SILH-PEN-BLK-3T-B
Sketch Pen - Glitter Set	SILH-PEN-GL-3T	SILH-PEN-GL-3T-B
Sketch Pen - Metallic Set	SILH-PEN-MTL2	SILH-PEN-MTL2-B
Sketch Pen - Natural Set	SILH-PEN-NAT	SILH-PEN-NAT-B
Sketch Pen - Neon Set	SILH-PEN-NEO	SILH-PEN-NEO-B

Most current machine owners should not be affected and can continue to use the original white body pens with their older Silhouette machine models. New Cameo 4 customers, however, will require the new black plastic body pens in order to fit properly in the Cameo 4's tool adapter.

Please feel free to contact your Sales Representative with any further questions on this topic.

Sincerely
The Silhouette Team
