

# Instruction Manual

## Electric Patio Heater

**Model:1820168**

**Please read these instructions carefully before using your new  
Electric Patio Heater**

## IMPORTANT INSTRUCTIONS

Only use the halogen heater on a firm solid horizontal area where all the feet on the base are in contact with the floor. (Should the heater be tilted or fall over the auto cut off switch will activate)

1. Site the heater outside or in a large open area and well away from any obstructions such as branches or where the heater is near any objects that can be affected by heat, such as furniture, curtains or other inflammable objects (minimum distance 1 meter).
2. Do not use in unventilated areas.
3. Do not use where gas, petrol, paint or other inflammable goods are stored.
4. Do not push any items through, obstruct or cover the grill of the heater head.
5. Do not leave turned on and unattended especially when children and or animals are in the vicinity.
6. The indication of the different positions of switches shall be visible from a distance of 1M.
7. The Marking concerning covering shall be visible after the heater has been installed. It shall not be placed on the back of portable heaters.
8. The unit must be securely placed on a horizontal and flat surface.
9. The unit is at high temperature during operation. It keeps hot for a period after shut down. Potential danger would occur when touching it during this period.
10. Don't place the unit closed to curtain and/or other flammable

objects. Otherwise there will be a danger of catching fire.

11. Don't cover the unit with anything during operation or a short time after it's shut down.
12. Don't wrap the power supply cord on the unit.
13. The unit must be handled with care, and avoid vibration or hitting.
14. The unit must be securely grounded during operation.
15. When assembling, keep clear from any board or flammable material.
16. The head of the unit is at high temperature during operation. Unplug the unit and wait till it cools before cleaning.
17. Don't use this unit in place where causticity or volatile air exists, i.e. dust, steam, gas, etc.
18. Don't use this unit as a cloth drier or towel drier.
19. Don't use this unit as a sauna heater.
20. Don't use this unit in place of animal propagating and raising.
21. Don't immerse this unit into water for cleaning.
22. The unit should be plugged in a socket, which is easily visible and reachable.
23. Two Dark points may exist on the surface of the heating elements during the first few minutes after it is turned on. This is normal, and will not affect the performance of the unit.
24. Children of less than 3 years should be kept away unless continuously supervised.

Children aged from 3 years and less than 8 years shall only switch on/off the appliance provided that it has been placed or installed in its intended normal operating position and they have been given supervision or instruction concerning use of

the appliance in a safe way and understand the hazards involved. Children aged from 3 years and less than 8 years shall not plug in, regulate and clean the appliance or perform user maintenance.

**CAUTION** — Some parts of this product can become very hot and cause burns.

Particular attention has to be given where children and vulnerable people are present.

## Assembling Process

Step 1: Connect the bottom tube with base by screwing them together.

Step 2: Connect the 2 middle tubes with bottom tube by screwing them together..

Step 3: Place the power cord plug through base, bottom tube, middle tube and top tube. Connect the power cord plug to the socket in the heater head.

Step 4: Push the heater head onto the top hollow tube and fix it in position using the supplied 2 X M4\*8 screws.

Step 5: Pull the power cord gently out of the base as much as possible. Fix the power cord under the weighted base using the supplied 4pcs M4 nuts.

Step 6: Raise or retract the top tube to the desired height and tighten to the middle tube by screwing knob down.

Step 7: Fix the heater on the floor. Bore three holes in the floor, fix the heater by three wedge bolts on the floor tightening the screws by spanner.

Complete!
