

- 1 Identification of the parts.....
- a Eve 10.5" frame for iPad Air (0670-xx)
Eve 10.2" frame for iPad 7th generation (0671-xx)
 - b Eve 10.5"/ 10.2" cover (0672-xx, - not included)
 - c Eve 10.5" cover security version
Eve 10.5"/ 10.2" cover security version
(0674-xx- not included)

- 2 Positioning of the wall box (not included).....
- A wall box should be foreseen to install the iPad power supply.
The Puck (not included) is a USB power supply which fits into a 1-gang wall box and uses the standard Lightning-to-USB Cable, supplied with the iPad.
The wall box should be installed according to the dimensions on the drawing (2).

- 3 Direction of the frame.....
- The Eve frame can be mounted horizontally or vertically.
Make sure to mount the iPad in the correct direction according to the drawing. (3). **Installing the frame in the wrong direction can damage the iPad.**

- 4 Puck power supply (not included - 0610-02).....
- Install the Puck in the wall box following the instructions of the Puck manual. Connect the standard Lightning-to-USB Cable, supplied with the iPad, to the Puck.

- 5 Installing the frame.....
- Please use the correct openings of the Eve frame and ensure the screws are positioned so that they cannot damage the iPad.

- 6 Mounting the iPad.....
- 1. Plug the power connector into the iPad.
 - 2. **Portrait mounting:** Place the right side of the iPad in the right side of the frame as shown on drawing 6 (a) . Then gently push the iPad in the frame so that it is being held by the magnets (b).
Landscape mounting: Place the right side of the iPad in the lower side of the frame as shown on drawing 6 (a). Then gently push the iPad in the frame so that it is being held by the magnets (b).
 - 3. Place the Eve cover making sure that the cover is not squeezing the power cable.
Make sure to follow the steps above in the right order as a wrong installation can damage the frame.

- 7 Removing the iPad.....
- 1. Remove the Eve cover.
 - 2. Place one finger behind the iPad and another one on the iPad as shown on the drawing 7 (a).
 - 3. Gently pull the iPad out of the frame making sure it cannot fall (b).
 - 4. Remove the power connector.
