

- 1 Identification of the parts.....
- a Eve mini frame for iPad mini 4 & 5
(product number: 625-xx) **(not compatible with iPad mini 1, 2 & 3)**
 - b Eve mini cover (product number: 621-xx, 622-xx - not included)
 - c Eve mini cover security version
(product number: 623-xx, 624-xx - not included)
- 2 Positioning of the wall box (not included).....
- A wall box should be foreseen to install the iPad power supply.
The Puck (not included) is a USB power supply which fits into a 1-gang wall box and uses the standard Lightning-to-USB Cable, supplied with the iPad.
The wall box should be installed according to the dimensions on the drawing (2).
- 3 Direction of the frame.....
- The Eve frame can be mounted horizontally or vertically.
Please take care to mount the frame in the correct direction according to the drawing (3). **Installing the frame in the wrong direction can damage the iPad.**
- 4 Puck Power supply (not included - product number: 610-02).....
- Install the Puck into the wall box following the instructions of the Puck manual. Connect the standard Lightning-to-USB Cable, supplied with the iPad, to the Puck.
- 5 Installing the frame.....
- Please use the correct openings of the Eve frame and ensure the screws are positioned so that they cannot damage the iPad.
- 6 Mounting the iPad mini.....
- 1. Plug the power connector into the iPad.
 - 2. **Portrait mounting:** Place the right side of the iPad in the right side of the frame as shown on drawing 6 (a) (opposite side of the magnets). Then gently push the iPad in the frame so that it is being held by the magnets (b).
Landscape mounting: Place the right side of the iPad in the lower side of the frame as shown on drawing 6 (a) (opposite side of the magnets). Then gently push the iPad in the frame so that it is being held by the magnets (b).
 - 3. Place the Eve cover making sure that the cover is not squeezing the power cable.
Make sure to follow the steps above in the right order as a wrong installation can damage the frame.

- 7 Removing the iPad mini.....
- 1. Remove the Eve cover.
 - 2. Place one finger behind the iPad (side with magnets) and another one on the right side of the iPad as shown on drawing 7 (a).
 - 3. Gently pull the iPad out of the frame making sure it cannot fall (b).
 - 4. Remove the power connector.
